Notifications

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213.

Dated: August 30, 2013.

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to

take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before November 5, 2013.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The Marine Mammal Protection Act of 1972 (MMPA; 16 U.S.C. 1361 *et seq.*) prohibits the "take" of marine mammals unless otherwise authorized or exempted by law. Among the provisions that allow for lawful take of marine mammals, sections 101(a)(5)(A) and (D) of the MMPA direct the Secretary of Commerce to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing), within a specified geographical region if, after notice of a proposed authorization to the public for review and public comment: (1) We make certain findings; and (2) the taking is limited to harassment.

We (National Marine Fisheries Service) shall grant authorization for the incidental taking of small numbers of marine mammals if we find that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). The authorization must set forth the permissible methods of taking; other means of effecting the least practicable adverse impact on the species or stock and its habitat; and requirements pertaining to the mitigation, monitoring and reporting of such taking. We have defined "negligible impact" in 50 CFR 216.103 as ". . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Issuance of an incidental take authorization (Authorization) under section 101(a)(5)(A) or 101(a)(5)(D) of the MMPA requires three sets of information collection: (1) A complete application for an Authorization, as set forth in our implementing regulations at 50 CFR 216.104, which provides the information necessary for us to make the necessary statutory determinations; (2) information relating to required monitoring; and (3) information related to required reporting. These collections of information enable us to: (1) Evaluate the proposed activity's impact on marine mammals; (2) arrive at the appropriate determinations required by the MMPA and other applicable laws prior to issuing the authorization; and (3) monitor impacts of activities for which we have issued Authorizations to determine if our predictions regarding impacts on marine mammals remain valid.

I. Abstract

This request is for extension of a current information collection.

The marine mammal stranding report provides information on strandings so that the National Marine Fisheries Service (NMFS) can compile and analyze, by region, the species, numbers, conditions, and causes of illnesses and deaths in stranded marine mammals. NMFS requires this information to fulfill its management responsibilities under the Marine Mammal Protection Act (16 U.S.C. 1421a). NMFS is also responsible for the welfare of marine mammals while in rehabilitation status. The data from the marine mammal rehabilitation disposition report are required for monitoring and tracking of marine mammals held at various NMFS-authorized facilities. This information is submitted primarily by members of the marine mammal stranding networks which are authorized by NMFS.

II. Method of Collection

Paper applications, electronic reports, and telephone calls are required from participants, and methods of submittal include the Internet through the NMFS National Marine Mammal Stranding Database; facsimile transmission of paper forms; or mailed copies of forms.
