NUCLEAR REGULATORY COMMISSION

10 CFR Part 51

[NRC-2012-0246]

RIN 3150-AJ20

Proposed Waste Confidence Rule and Draft Generic Environmental Impact Statement

AGENCY: Nuclear Regulatory Commission.

ACTION: Public meetings.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) plans to hold public meetings to receive public comments on its forthcoming proposed amendments to the NRC's regulations pertaining to the environmental impacts of the continued storage of spent nuclear fuel beyond a reactor's licensed life for operation and prior to ultimate disposal (proposed Waste Confidence rule). In addition, the NRC will receive public comment on its forthcoming draft generic environmental impact statement (DGEIS), NUREG-2157, "Waste Confidence Generic Environmental Impact Statement," that forms the regulatory basis for the proposed amendments. The meetings are open to the public, and anyone may attend. The NRC is issuing this notice in advance of the release of the proposed Waste Confidence rule and DGEIS in order to maximize public participation at these meetings and ensure that as many parties as possible are able to attend. **DATES:** The NRC plans to hold public meetings in October and November 2013 during a planned, 75-day public comment period for the proposed Waste Confidence rule and DGEIS. This document contains specific meeting information in the **SUPPLEMENTARY INFORMATION** section.

SUPPLEMENTARY INFORMATION: As part of the public comment process, the NRC plans to hold 12 transcribed public meetings during the public comment period to solicit comments on the proposed Waste Confidence rule and DGEIS. The NRC plans to publish the proposed Waste Confidence rule and DGEIS in September 2013, and it will issue a notice of availability for the proposed rule and the DGEIS in the **Federal Register** at that time.

The proposed Waste Confidence rule would amend the NRC's regulations pertaining to the environmental impacts of the continued storage of spent nuclear fuel beyond a reactor's licensed life for operation and prior to ultimate disposal. The DGEIS forms the regulatory basis for the proposed amendments in the Waste Confidence rule. The DGEIS examines the potential environmental impacts that could occur as a result of the continued storage of spent nuclear fuel at at-reactor and

away-from-reactor sites until a repository is available. The DGEIS provides generic environmental impact determinations that would be applicable to a wide range of existing and potential future spent fuel storage sites. While some site-specific information is used in developing the generic impact determinations, the Waste Confidence DGEIS does not replace the environmental analysis, performed pursuant to the National Environmental Policy Act, associated with any individual site licensing action.

The NRC staff plans to hold the following public meetings during the planned, 75-day public comment period to present an overview of the DGEIS and proposed Waste Confidence rule and to accept public comments on the documents.

- In addition to the meetings listed above, the NRC staff intends to hold a

meeting during the comment period in Illinois. Although the exact date and venue have yet to be arranged, the NRC staff will provide this information well in advance of the meeting.

The ten regional public meetings will start at 7:00 p.m. local time and will continue until 10:00 p.m. local time. The two NRC headquarters meetings will start at 2:00 p.m. Eastern Time and will continue until 5:00 p.m. Eastern Time. Additionally, NRC staff will host informal discussions during an open house 1 hour prior to the start of each meeting. Open houses will start at 6:00 p.m. local time for regional meetings and 1:00 p.m. Eastern Time for the NRC Headquarters meetings.

To maximize the time for comment, the NRC staff will only be available to answer specific questions on the Waste Confidence rule or DGEIS during the open house. The public meetings will be transcribed and will include: (1) A presentation of the contents of the DGEIS and proposed Waste Confidence rule; and (2) the opportunity for government agencies, organizations, and individuals to provide comments on the DGEIS and proposed rule. No oral comments on the DGEIS or proposed Waste Confidence rule will be accepted during the open house sessions. Members of the public may also register to provide oral comments in-person at each meeting. Individual oral comments may be limited by the time available, depending on the number of persons who register.

If special equipment or accommodations are needed to attend or present information at a public meeting, the need should be brought to the NRC's attention no later than 10 days prior to the meeting to provide the NRC staff adequate notice to determine whether the request can be accommodated. To maximize public participation, the NRC headquarters meetings on October 1, 2013, and November 14, 2013, will be Web-streamed via the NRC's public Web site. See the NRC's Live Meeting Webcast page to participate: <http://video.nrc.gov/>. The NRC headquarters meetings will also feature a moderated teleconference line so remote attendees will have the opportunity to present oral

comments. To receive the teleconference number and passcode, call 301-287-9392 or email WCRegistration@nrc.gov. Meeting agendas and participation details will be available on the NRC's Waste Confidence Public Involvement Web site at <http://www.nrc.gov/waste/spent-fuel-storage/wcd/pub-involve.html> and on the NRC's Public Meeting Schedule Web site at <http://www.nrc.gov/public-involve/public-meetings/index.cfm> no later than 10 days prior to the meetings.

Dated at Rockville, Maryland, this 30th day of August 2013.

Revisions to Operational Requirements for the Use of Enhanced Flight Vision Systems (EFVS) and to Pilot Compartment View Requirements for Vision Systems; Extension of Comment Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); extension of comment period.

SUMMARY: This action extends the comment period for an NPRM that was published on June 11, 2013. In that document, the FAA proposed to permit operators to use an EFVS in lieu of natural vision to continue descending from 100 feet height above runway touchdown zone elevation and land on certain straight-in instrument approach procedures under instrument flight rules. This rule would also permit certain operators using EFVS-equipped aircraft to dispatch, release, or takeoff under instrument flight rules (IFR), and to initiate and continue an approach, when the destination airport weather is below authorized visibility minimums for the runway of intended landing. Pilot training, recent flight experience, and proficiency would be required for operators who use EFVS in lieu of natural vision to descend below decision altitude, decision height, or

minimum descent altitude. EFVS-equipped aircraft conducting operations to touchdown and rollout would be required to meet additional airworthiness requirements. This rule would also revise pilot compartment view certification requirements for all vision systems. Given the technical complexity of the NPRM, Dassault Aviation has requested that the FAA extend the comment period to October 15, 2013 to allow time to adequately analyze the NPRM and provide meaningful comments.

DATES: The comment period for the NPRM published on June 11, 2013, was scheduled to close on September 9, 2013, and is extended until October 15, 2013.
