Background

Major projects are defined in section 106(h) of title 23, United States Code (U.S.C.), as projects receiving Federal financial assistance with an estimated total cost of \$500,000,000, or other projects as may be identified by the Secretary. Major projects are typically large, complex projects designed to address major highway needs and require the investment of significant financial resources. The preparation of the annual financial plan, as required by 23 U.S.C. 106(h)(3), ensures that the necessary financial resources are identified, available, and monitored throughout the life of the project.

The proposed Major Project Financial Plan Guidance replaces the existing January 2007 Major Project Financial Plan Guidance. Section 106 of title 23 U.S.C., as amended by section 1503 of MAP–21, allows Financial Plans to include a phasing plan when there are insufficient financial resources to complete the entire project. In addition, 23 U.S.C. 106 now requires recipients of Federal financial assistance to assess the appropriateness of a public-private partnership to deliver the project. In addition to these MAP–21 changes, the proposed Major Project Financial Plan Guidance also incorporates a recommendation included in a 2009 GAO report titled, “Federal-Aid Highway: FHWA Has Improved Its Risk Management Approach, but Needs to Improve Its Oversight of Project Costs”

(GA–090–751). That report recommended that Financial Plans include the cost of financing the project.

Comments on the proposed Major Project Financial Plan Guidance are welcome from any interested party, including Federal, State, and local agencies; industry groups; and the general public. A copy of the proposed Major Project Financial Plan Guidance is available for download and public inspection under the docket number noted above at the Federal eRulemaking portal at: <http://www.regulations.gov>. The FHWA requests that commenters cite the page number of the Guidance for which each specific comment to the docket is concerned, to help make the FHWA’s docket comment review process more efficient. The FHWA will consider all comments received during the comment period prior to finalizing the Major Project Financial Plan Guidance.
