SUPPLEMENTARY INFORMATION: *Title:* 7 CFR Part 210, National School Lunch Program.

Form Number: FNS-13.

OMB Number: 0584-0075.

Expiration Date: 2/28/2014.

Type of Request: Revision of a currently approved collection.

Abstract: FNS uses the Annual Report of State Revenue Matching, Form FNS-13, to collect data on State revenue matching to meet the reporting required by 7 CFR 210.17(g). The Food and Nutrition Service administers the National School Lunch Program, the School Breakfast Program, and the Special Milk Program as mandated by the Richard B. Russell National School Lunch Act (NSLA), as amended (42 U.S.C. 1751, *et seq.*), and the Child

Nutrition Act of 1966, as amended (42 U.S.C. 1771, *et seq.*). Information on school program operations is collected from State agencies on a yearly basis to monitor and make adjustments to State agency funding requirements. As provided in 7 CFR 210.17, each school year, State revenues must be appropriated or used specifically by the State for Federal school lunch program purposes. The amount that must be appropriated or used generally is at least 30% of the funds received by the State under Section 4 of the NSLA (42 U.S.C. 1753) during the school year beginning July 1, 1980, unless exemptions or waivers are met, as described in 7 CFR 210.17. The form is an intrinsic part of the accounting system currently being used by the subject programs to ensure proper reimbursement as well as to facilitate adequate recordkeeping. The FNS-13 form is provided to States through a web-based Federal reporting system and, 100 percent of the information is collected through electronic means. There are no changes required for the instructions on FNS-13. However, this revision made significant program adjustment to reporting burden hours as a result of automation and the advancement of State systems technology. The response time (estimated average number of hours per response) is decreased from the previously approved 80 hours to 8 hours and hence the total number of burden hours is reduced from 4,560 to 456 hours.

Affected Public: State agencies.

Estimated Number of Respondents: 57 State agencies.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 57.

Estimated Time per Response: 8 hours.

Estimated Total Annual Burden on Respondents: 456 hours.

See the table below for estimated total annual burden for each type of respondent.

Respondent	Estimated number of respondent	Responses annually per respondent	Total annual responses	Estimated average number of hours per response	Estimated total hours
Reporting Burden: State agency	57	1.00	57	8	456

Beaverhead-Deerlodge National Forest, Montana; Supplemental Environmental Impact Statement for the Beaverhead-Deerlodge National Forest Land and Resource Management Plan To Comply With a District of Montana Court Order (Temporary Roads)

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare a supplemental environmental impact statement.

SUMMARY: The Beaverhead-Deerlodge National Forest will prepare a Supplemental Environmental Impact Statement (SEIS) to the 2009 Beaverhead-Deerlodge National Forest Land and Resource Management Plan (Forest Plan) environmental analysis in response to a May 24, 2013 Order from the U.S. District Court for the District of Montana. The Court directed the Forest Service to “. . . supplement its EIS for the Forest Plan to explain or support, if possible, its decision to exclude temporary roads from the road density objectives” The supplement will address the Forest Plan Goal for Wildlife Security and density of roads and trails open to motorized use displayed in Tables 13 and 14 on pages 45-47 of the Forest Plan.

DATES: Scoping is not required for supplements to environmental impact statements (40 CFR 1502.9(c)(4)). Review and comments will be solicited once the Draft SEIS is filed with EPA. The Draft SEIS is expected in February, 2014.

ADDRESSES: The line officer responsible for the decision is the Beaverhead-Deerlodge National Forest Supervisor, 420 Barrett Street, Dillon, MT 59725.

FOR FURTHER INFORMATION CONTACT: Jan Bowey at 406-842-5432 or email jbowey@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

The Forest Plan provides management direction for activities on the Beaverhead-Deerlodge National Forest for the next 10 to 15 years, including direction on eight revision topics (vegetation, wildlife, aquatic resources, recreation and travel management, fire management, livestock grazing, timber and recommended wilderness). In 2012, Native Ecosystems Council and Alliance for the Wild Rockies filed a complaint in U.S. District Court for the District of Montana (case 9:12-cv-00027-DLC) alleging the Forest Plan failed to ensure elk viability because the Forest Service did not disclose and consider the best available science in its analysis of road density. In a May 24, 2013 Order, the U.S. District Court for the District of

Montana found the Forest Service “. . . complied with the general requirements of the 1982 viability regulation for elk and adequately disclosed the science upon which it relied to determine appropriate road density levels for areas with different management goals. . . . However, the Forest Service did not explain or support its decision to exclude temporary roads from the road density objectives.” Therefore, there is a need to evaluate the effects of temporary roads to comply with the court’s order.

Proposed Action

We are uncertain if there is a need to change management direction in the Forest Plan. A determination will be made based upon the analysis of the effects of temporary road construction and use. The Draft SEIS may or may not propose an amendment to the Forest Plan.

We expect to have a Draft SEIS available for public review and comment in February, 2014. The comment period for the Draft SEIS will be 90 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. We believe, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer’s position and contentions. *Vermont Yankee Nuclear Power Corp. v.*
