Notice of Lodging of Proposed Consent Decrees Under the Comprehensive Environmental Response, Compensation, and Liability Act

Notice is hereby given that on September 3, 2013, a proposed Consent Decree in *United States v. Vermont Asbestos Group, Inc.*, Civil Action No. 2:13-cv-00238-wks, between the United States, State of Vermont, and

Vermont Asbestos Group, Inc. was lodged with the United States District Court for the District of Vermont.

In the United States' action brought under Sections 106, 107, and 113(g)(2) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. 9606, 9607 and 9613(g)(2) ("CERCLA"), the United States seeks injunctive relief requiring the Vermont Asbestos Group ("Settling Defendant") to perform the operation and maintenance of the erosion control structures constructed by the United States Environmental Protection Agency at the Vermont Asbestos Group Mine Superfund Site in Lowell and Eden, Vermont. The United States also seeks to recover costs incurred and to be incurred by the United States in response to releases or threatened releases of hazardous substances at or from the Site.

The settlement, based on Settling Defendant's limited "ability to pay," requires Settling Defendant to undertake the operation and maintenance of the erosion control structures at the Site; pay the State of Vermont \$5,000 per year for ten years; and stipulate to a judgment in favor of the United States in the amount of \$3,360,082 for EPA's past cleanup costs and in favor of the State in the amount of \$174,620 for the State's past cleanup costs. The Settling Defendant also stipulates to the entry of a judgment in favor of the State for State Future Response Costs estimated to be at least \$28,458,399. These stipulated amounts are to be satisfied only through the recovery of insurance proceeds.
