SUPPLEMENTARY INFORMATION:

I. Background

The Division of Coal Mine Workers' Compensation administers the Black Lung Benefits Act (30 U.S.C. 901 *et seq.*) which provides benefits to coal miners totally disabled due to pneumoniosis, and their surviving dependents. When the Division of Coal Mine Workers' Compensation (DCMWC) makes a preliminary analysis of a claimant's eligibility for benefits, and if a coal mine operator has been identified as

potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. Regulatory authority is found in 20 CFR 725.410 for the CM-2970 and 20 CFR 725.408 for the CM-2970a. This information collection is currently approved for use through January 31, 2014.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
