

C. Instructions for National Response Center Report Number

Comment: API/AOPL requests that PHMSA delay the proposal to collect multiple National Response Center (NRC) report numbers until the NRC implements requirements from the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011 (“Act”).

PHMSA Response: PHMSA does not agree that it is necessary to wait for actions the NRC may take in response to the “Act.”

Comment: API/AOPL suggests a new option is needed when a NRC Report was not submitted and proposes that “NRC notification not required at time of release” be added as an option.

PHMSA Response: PHMSA has already proposed “NRC Notification Not Required” as an option.

D. Revise instructions for Accident Preparer and Authorizer

Comment: API/AOPL recommends changes to both the instructions and form to make clear that the information will be available to the public.

PHMSA Response: All data submitted by operators to PHMSA could potentially be made publicly available. We have not adopted this recommendation.

The following information is provided for each information collection: (1) Abstract for the affected accident report form; (2) title of the information collection; (3) OMB control number; (4) affected accident report form; (5) description of affected public; (6) estimate of total accident reporting and recordkeeping burden; and (7) frequency of collection. PHMSA will request a three-year term of approval for each information collection activity and, when approved by OMB, publish notice of the approval in the **Federal Register**.

PHMSA requests comments on the following information collection:

Title: Transportation of Hazardous Liquids by Pipeline: Recordkeeping and Accident Reporting.

OMB Control Number: 2137-0047.

Current Expiration Date: 1/31/2014.

Type of Request: Revision.

Abstract: This information collection covers recordkeeping and accident reporting by hazardous liquid pipeline operators who are subject to 49 CFR Part 195 as well as the incorporation by reference of the industry standard on leak detection. PHMSA is proposing to revise the Hazardous Liquid Accident Report to collect more data on small spills and to revise the instructions for completing the form. Section 195.50 specifies the definition of an “accident” and the reporting criteria for submitting

a Hazardous Liquid Accident Report (Form PHMSA F7000-1) is detailed in § 195.54.

Section 195.444 requires operators of single-phase hazardous liquid pipeline facilities that use Computational Pipeline Monitoring (CPM) leak detection systems to comply with the standards set out in American Petroleum Institute (API) publication API 1130. API 1130 provides information collection and maintenance guidance on many factors such as measurement capabilities, communications reliability, pipeline operating condition, and product type. Compliance with API 1130, including its recordkeeping requirements, supports pipeline safety by ensuring the proper functioning of CPM leak detection systems.

Affected Public: Hazardous liquid pipeline operators.

Accident Reporting and Recordkeeping Burden:

Annual Responses: 897.

Annual Burden Hours: 52,429.

Frequency of collection: On Occasion.

Comments are invited on:

(a) The need for the proposed collection of information for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Issued in Washington, DC, on September 5, 2013.

Jeffrey D. Wiese,

Associate Administrator for Pipeline Safety.

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[Docket No. FD 35760]

Hainesport Industrial Railroad, LLC—Corporate Family Transaction Exemption

Hainesport Industrial Railroad, LLC (Hainesport), a Class III railroad, filed a verified notice of exemption under 49

CFR 1180.2(d)(3) for a corporate family transaction pursuant to which Hainesport will transfer ownership and operation of a line of railroad in Hainesport, N.J., to a corporate affiliate.

According to Hainesport, it currently owns and operates a series of tracks serving several customers located in the Hainesport Industrial Park in Hainesport, N.J., where it connects with a line owned and served by Consolidated Rail Corporation (Conrail).¹ Hainesport states that several sidings point in an easterly direction (East Line) and one or more sidings point in a southerly direction (South Line). Hainesport proposes to establish a new corporate affiliate, Hainesport Secondary Railroad, LLC (Hainesport Secondary), to own and operate the East Line. Hainesport will continue to own and operate the South Line. Hainesport states that it will enter into a haulage agreement with Hainesport Secondary that provides for Hainesport Secondary to move traffic between the South Line and the Conrail interchange on behalf of Hainesport.

Unless stayed, the exemption will be effective on September 25, 2013 (30 days after the verified notice was filed). Applicant states that the parties intend to consummate the proposed transaction on or about September 26, 2013.

According to Hainesport, the purpose of this transaction is to allow Hainesport to separate the lines of railroad according to the types of traffic each handles. In addition, Hainesport states that the transaction will facilitate the sale of the South Line should Hainesport’s owners choose to sell that line in the future.

The line transfer is a transaction within a corporate family exempted from prior review and approval under 49 CFR 1180.2(d)(3). Applicant states that the transaction will not result in adverse changes in service levels, significant operational changes, or changes in the competitive balance with carriers outside the corporate family.

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. Section 11326(c), however, does not provide for labor protection for transactions under 11324 and 11325 that involve only Class III rail carriers. Accordingly, the Board may not impose labor protective conditions here, because all of the carriers involved are Class III rail carriers.

¹ See *Hainesport Indus. R.R.—Acquis. & Operation Exemption—Hainesport Indus. Park R.R.*, FD 34695 (STB served May 18, 2005).

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than September 18, 2013 (at least seven days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 35760, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on applicant's representative, John D. Heffner, Strasburger & Price, LLP, 1700 K Street NW., Suite 640, Washington, DC 20006.

Board decisions and notices are available on our Web site at "WWW.STB.DOT.GOV."

Decided: September 6, 2013.

By the Board, Rachel D. Campbell, Director, Office of Proceedings.

Derrick A. Gardner,

Clearance Clerk.
