SUPPLEMENTARY INFORMATION:

A. Purpose

The information on place of manufacture was formerly used by each Federal agency to prepare a report to Congress required by 41 U.S.C. 8302(b)(1) for FY 2009 through 2011 on acquisitions of articles, materials, or supplies that are manufactured outside the United States. However, the data is still necessary for analysis of the application of the Buy American statute and the trade agreements and for other reports to Congress. Additionally, contracting officers require this data as the basis for entry into the Federal Procurement Data System for further data on the rationale for purchasing foreign manufactured items.

B. Annual Reporting Burden

Based on a Federal Procurement Data System (FPDS) report of Government-wide acquisition of manufactured end products in FY 2012, a total of 427,055 contracts were awarded. Since this is a solicitation provision, we estimate an average of 4 responses per solicitation resulting in approximately 1,708,220 offers (427,055 x 4 (rounded)). Of the approximately 1,708,220 offers, the Government estimates that an average of 10 responses annually will be received from 170,822 unique vendors (1,708,220/10). Consequently, it was determined that the FY 2012 FPDS data identifying 170,822 unique vendors was a sufficient baseline for estimating the number of respondents. It is therefore estimated that approximately 170,822 respondents would need to comply with this information collection. The time required to read and prepare information is estimated at .01 hour (less than one minute) per completion. Recordkeeping will be integrated into systems already established by offerors.

Estimated number of respondents: 170,822.

Est. number of responses per respondent per year: x 10.

Total annual responses (rounded): 1,708,220.

Estimated hours per response: 0.1.

Total response burden hours: 17,082.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of

information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street NW., 2nd floor, Washington, DC 20405–0001, telephone 202–501–4755. Please cite OMB Control Number 9000–0161, Reporting Purchases from Sources Outside the United States, in all correspondence.

Information Collection Request Title: Standards for Privacy of Individually Identifiable Health Information, Security Standards for the Protection of Electronic Protected Health Information, and Supporting Regulations Contained in 45 CFR Parts 160 and 164
OMB No.: 0945-0003.

Abstract: The Office for Civil Rights (OCR) is notifying the public of revisions to a previously approved OCR data collection. The revisions reflect certain regulatory modifications to the HIPAA Privacy and Security Rules, pursuant to the Health Information for Economic and Clinical Health (HITECH) Act and the Genetic Information Nondiscrimination Act (GINA), that were finalized in the Omnibus HIPAA Final Rule published on January 25, 2013 (78 FR 5566). These modifications strengthen privacy and security protections for individually identifiable health information used or disclosed by business associates and enhance the rights of individuals with respect to their identifiable health information.

Need and Proposed Use of the Information: The information collection addresses HIPAA requirements related to the use, disclosure, and safeguarding of individually identifiable health information by covered entities affected by the HIPAA Rules. The information is routinely used by covered entities and business associates for treatment, payment, and health care operations. In addition, the information is used for specified public policy purposes, including research, public health, and as required by other laws. The Privacy Rule also ensures that the individuals are able to exercise certain rights with respect to their information, including the rights to access and seek amendments to their health records and to receive a Notice of Privacy Practices (NPP) from their direct treatment providers and health plans.

Likely Respondents: Respondents include HIPAA covered entities and their business associates, as well as members of the public.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the tables below.
