SUPPLEMENTARY INFORMATION:

A. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the

quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

B. Purpose

The Digital Government Strategy (May 2012) requires federal agencies to measure performance and customer satisfaction to improve service delivery. Since the Web is a primary channel for agencies to deliver government information and services to the American public, this collection will provide actionable data to help agencies improve their Web sites; enable agency compliance with the Digital Government Strategy; and streamline the PRA review process for Web site surveys, for both OMB and agencies.

Online surveys are an industry best practice, and one of the most efficient ways for agencies to measure customer satisfaction. A random selection of visitors to government Web sites will be given the opportunity to complete a survey. Participation is voluntary and anonymous. Survey questions are documented on *HowTo.gov*. The data gathered will be used internally by agencies to improve service to government customers.

C. Annual Reporting Burden

(Note, this burden is calculated only for GSA's *HowTo.gov* Web site.)

The estimated annual burden:

Respondents: 1800.

Responses Per Respondent: 1.

Total Annual Responses: 1800.

Hours Per Response: .03.

Total Burden Hours: 54.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street NW., Washington, DC 20405, telephone 202-501-4755.

Please cite OMB Control No. 3090-XXXX, DigitalGov Customer Satisfaction Survey, in all correspondence.

Dated: September 5, 2013.

Casey Coleman,

Chief Information Officer.

SUPPLEMENTARY INFORMATION:

A. Purpose

The information on place of manufacture was formerly used by each Federal agency to prepare a report to Congress required by 41 U.S.C. 8302(b)(1) for FY 2009 through 2011 on acquisitions of articles, materials, or supplies that are manufactured outside the United States. However, the data is still necessary for analysis of the application of the Buy American statute and the trade agreements and for other reports to Congress. Additionally, contracting officers require this data as the basis for entry into the Federal Procurement Data System for further data on the rationale for purchasing foreign manufactured items.

B. Annual Reporting Burden

Based on a Federal Procurement Data System (FPDS) report of Government-wide acquisition of manufactured end products in FY 2012, a total of 427,055 contracts were awarded. Since this is a solicitation provision, we estimate an average of 4 responses per solicitation resulting in approximately 1,708,220 offers (427,055 x 4 (rounded)). Of the approximately 1,708,220 offers, the Government estimates that an average of 10 responses annually will be received from 170,822 unique vendors (1,708,220/10). Consequently, it was determined that the FY 2012 FPDS data identifying 170,822 unique vendors was a sufficient baseline for estimating the number of respondents. It is therefore estimated that approximately 170,822 respondents would need to comply with this information collection. The time required to read and prepare information is estimated at .01 hour (less than one minute) per completion. Recordkeeping will be integrated into systems already established by offerors.

Estimated number of respondents: 170,822.

Est. number of responses per respondent per year: x 10.

Total annual responses (rounded): 1,708,220.

Estimated hours per response: 0.1.

Total response burden hours: 17,082.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of

information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street NW., 2nd floor, Washington, DC 20405–0001, telephone 202–501–4755.
