SUPPLEMENTARY INFORMATION: EPA submitted the following ICR to OMB for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), and the procedures in 5 CFR 1320.12.

Prior Public Notice: Pursuant to 5 CFR 1320.8(d), EPA announced and provided a 60-day public comment period on the information collection activities as described in this ICR (77 FR 39699, July 5, 2012). EPA did not receive any public comments. This notice allows for an additional 30 days for public comments.

ICR Status: This is a new ICR. Under the PRA, an Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and are included on the related collection instrument or form, if applicable.

Abstract: EPA will use the information collected under this new ICR to ensure that the identified risk mitigation measures necessary for reregistration eligibility for certain soil fumigant chemicals are adequately implemented. Under section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), pesticide registrants must generate and submit data to the Agency when such data are needed to maintain an existing registration of a pesticide.

In June 2009, after an extensive public review process, EPA completed Reregistration Eligibility Decisions (REDs) for a group of soil fumigant chemicals that takes into account the best available information on the

potential risks and benefits of soil fumigant use. As discussed in the RED, the Agency determined that certain uses of the soil fumigants are eligible for reregistration, provided that the risk mitigation measures outlined in the REDs are adopted. This ICR estimates the burden on respondents related to the implementation of these risk mitigation measures.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this ICR are certified applicators and agricultural pesticide handlers, soil fumigant registrants, state and tribal lead agencies, and EPA.

Respondent's obligation to respond: Responses to this collection of information are required to obtain or retain a benefit (i.e., registration of the soil fumigant uses identified).

Estimated number of respondents: 17,853.

Frequency of response: On occasion.

Total estimated annual burden: 197,646 hours. Burden is defined at 5 CFR 1320.3(b).

Total estimated annual cost: \$7,243,472, includes \$808,800 in annual capital or operation & maintenance costs.

Changes in the Estimates: This is a new ICR.

Abstract: As required by the Clean Air Act, EPA has regulations establishing emission standards and other requirements for various classes of vehicles, engines, and evaporative emissions. These regulations require that compliance be demonstrated prior to EPA granting a "Certificate of Conformity." EPA charges fees for

administering this certification program. In 2004, the fees program was expanded to include non-road categories of vehicles and engines, such as several categories of marine engines, locomotives, non-road recreational vehicles, and many non-road compression-ignition and spark-ignition engines. In 2008, the fees program was further expanded to include fees for certification of evaporative system components (primarily fuel lines and fuel tanks). Manufacturers and importers of covered vehicles, engines and components are required to pay the applicable certification fees prior to their certification applications being reviewed. Under section 208 of the Clean Air Act (42 U.S.C. 7542(c)) all information, other than trade secret processes or methods, must be publicly available. Information about fee payments is treated as confidential information prior to certification.

Form Numbers: EPA Forms 3520–29.

Respondents/affected entities:

Manufacturers or importers of passenger cars, motorcycles, light trucks, heavy duty truck engines, non-road vehicles or engines, and evaporative emissions components required to receive a certificate of conformity from EPA prior to selling or introducing these products into commerce in the U.S.

Respondent's obligation to respond: Required to obtain or retain a benefit (40 CFR Part 1027)

Estimated number of respondents: 583 (total).

Frequency of response: Yearly and Occasionally.

Total estimated burden: 1,513 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$112,873 (per year), which includes \$24,623 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is increase of 306 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to an adjustment of the estimate entirely due to the increased number of fee forms received from an increased number of manufacturers.
