SUPPLEMENTARY INFORMATION: EPA submitted the following ICR to OMB for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), and the procedures in 5 CFR 1320.12.

Prior Public Notice: Pursuant to 5 CFR 1320.8(d), EPA announced and provided a 60-day public comment period on the information collection activities as described in this ICR (77 FR 39699, July 5, 2012). EPA did not receive any public comments. This notice allows for an additional 30 days for public comments.

ICR Status: This is a new ICR. Under the PRA, an Agency may not conduct or sponsor a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 CFR, after appearing in the Federal Register, are listed in 40 CFR part 9 and are included on the related collection instrument or form, if applicable.

Abstract: EPA will use the information collected under this new ICR to ensure that the identified risk mitigation measures necessary for reregistration eligibility for certain soil fumigant chemicals are adequately implemented. Under section 3(c)(2)(B) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), pesticide registrants must generate and submit data to the Agency when such data are needed to maintain an existing registration of a pesticide.

In June 2009, after an extensive public review process, EPA completed Reregistration Eligibility Decisions (REDs) for a group of soil fumigant chemicals that takes into account the best available information on the potential risks and benefits of soil fumigant use. As discussed in the RED, the Agency determined that certain uses of the soil fumigants are eligible for reregistration, provided that the risk mitigation measures outlined in the REDs are adopted. This ICR estimates the burden on respondents related to the implementation of these risk mitigation measures.

Form Numbers: None.

Respondent/affected entities: Entities potentially affected by this ICR are certified applicators and agricultural pesticide handlers, soil fumigant registrants, state and tribal lead agencies, and EPA.

Respondent’s obligation to respond: Responses to this collection of information are required to obtain or retain a benefit (i.e., registration of the soil fumigant uses identified).

Estimated number of respondents: 17,853.

Frequency of response: On occasion.

Total estimated annual burden: 197,646 hours. Burden is defined at 5 CFR 1320.3(b).

Total estimated annual cost: $7,243,472, includes $808,800 in annual capital or operation & maintenance costs.

Changes in the Estimates: This is a new ICR.
