

- October 9: Wright, Wyoming—Wright Town Hall—201 Wright Blvd.
- October 10: Cheyenne, Wyoming—Laramie County Library—2200 Pioneer Ave.

The meetings will begin at 6:00 p.m. and generally last until 9:00 p.m.; the meeting in Cheyenne will end at 8:30 p.m. The meetings will start with a 30-minute Open House, followed by a short presentation, and ending with allotted time for comments, questions, and answers. Forest Service employees assigned to the Thunder Basin National Grassland Prairie Dog Amendment will be available to discuss and answer questions the public may have about the Proposed Action.

The Forest Service will be operating under the new Part 218—Project-level Pre-decisional Administrative Review Process (hereinafter referred to as ‘objection’), 36 CFR part 218 Subparts A and B, for this analysis. Per these regulations, individuals and entities who submit timely, specific written comments regarding a proposed project or activity during any designated opportunity for public comment will have standing to file an objection. This includes requests for comments during this initial scoping period as well as comments submitted during the 45-day comment period for the Draft EIS.

It is the responsibility of persons providing comments to submit them by the close of established comment periods. Only those who submit timely and specific written comments will have eligibility (36 CFR 218.5) to file an objection under 36 CFR 218.8. For objection eligibility, each individual or representative from each entity submitting timely and specific written comments must either sign the comment or verify identity upon request. Individuals and organizations wishing to be eligible to object must meet the information requirements in § 218.25(a)(3). Names and contact information submitted with comments will become part of the public record and may be released under the Freedom of Information Act.

Comment Requested

The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early state, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their

participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer’s positions and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Dated: September 9, 2013.

Forest Supervisor.
