Methodology

The Department has conducted this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (“the Act”). For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is on file electronically via Import Administration’s Antidumping and Countervailing Duty Centralized Electronic Service System (“IA ACCESS”). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, Room 7046 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly on the internet at <http://www.trade.gov/ia/>. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Intent Not To Revoke Order in Part

We preliminarily find that Grobest has not satisfied the requirements of 19 CFR 351.222(b). Thus, under section 751 of the Act, we preliminarily determine not to revoke in part the order with respect to Grobest.

Preliminary Results of Review

The Department has preliminarily determined that the following weighted-average dumping margin exists.

Exporter	Weighted-average dumping margin (percent)
Grobest & I-Mei Industrial (Vietnam)	25.76

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, filed electronically via IA ACCESS. An electronically filed document must be received successfully in its entirety by the Department’s electronic records system, IA ACCESS, by 5 p.m. Eastern Standard Time within 30 days after the date of publication of this notice.⁴ Requests should contain: (1) The party’s name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs.

The Department will issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act.

Cash Deposit Rates

The Department notes that this notice will not effectuate new cash deposit requirements for Grobest because the 4th AR⁵ cash deposit rate has been superseded.⁶

Assessment Rates

Upon issuance of the final results, the Department will determine, and U.S. Customs and Border Protection (“CBP”) shall assess, antidumping duties on all appropriate entries covered by this review.⁷ The Department preliminarily intends to instruct CBP to liquidate entries containing merchandise from Grobest at the AFA rate. Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Endangered Species; File No. 14726

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for a permit modification.

SUMMARY: Notice is hereby given that Blair Witherington, Ph.D., Florida Fish and Wildlife Conservation Commission, 9700 South A1A, Melbourne Beach, FL, 32951, has requested a modification to scientific research Permit No. 14726–01.

DATES: Written, telefaxed, or email comments must be received on or before October 18, 2013.

ADDRESSES: The modification request and related documents are available for review by selecting “Records Open for Public Comment” from the Features box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 14726 from the list of available applications. Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301)713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Rosa L. González, (301)427-8401.

SUPPLEMENTARY INFORMATION: The subject modification to Permit No. 14726-01, issued on April 7, 2011 (76 FR 30309) is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222-226).

Permit No. 14726-01 authorizes the permit holder to locate and describe areas of the Atlantic Ocean and Gulf of Mexico near Florida that serve as developmental habitat for pelagic-stage juvenile and neonate loggerhead (*Caretta caretta*), green (*Chelonia mydas*), Kemp's ridley (*Lepidochelys kempii*), hawksbill (*Eretmochelys imbricata*), and leatherback (*Dermochelys coriacea*) sea turtles, to quantify threats to pelagic sea turtles, and to gather information on their life-history, genetics, movements, behavior, and diet. Researchers are authorized to capture by dip net, flipper and passive integrated transponder tag, measure, weigh, and oral swab sea turtles. A subset of animals may be skin biopsied, fecal sampled, lavaged or have a satellite tag attached. The permit holder requests authorization to (1) expand the action area to the Gulf of Mexico; (2) modify the method for satellite tag attachments; (3) change the sea turtle species, life stages, and number of animals that may be biologically sampled and satellite tagged; (4) add scute and blood sampling to the suite of procedures that can be performed on captured sea turtles; and (5) conduct vessel surveys for counts of leatherback and loggerhead sea turtles. Genetic and

stable isotope analyses from this sampling would help Dr. Witherington determine the trophic history of pelagic neonate and neritic stage loggerhead sea turtles and assign a source rookery to these turtles. Satellite telemetry with the trophic histories would further describe the sea turtles' home range, habitat use, residency and intersection with fisheries.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(D) of the MMPA, as amended (16 U.S.C. 1371 (a)(5)(D)), directs the Secretary of Commerce (Secretary) to authorize, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or population stock, by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization for the incidental taking of small numbers of marine mammals shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant). The authorization must set forth the permissible methods of taking, other means of effecting the least practicable adverse impact on the species or stock and its habitat, and requirements pertaining to the mitigation, monitoring and reporting of such takings. NMFS has defined "negligible impact" in 50 CFR 216.103 as ". . . an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."

Section 101(a)(5)(D) of the MMPA established an expedited process by
