The estimated breakdown of annual cost is as follows:

- Year 1
  - New Entities, Development of Operating Plan: 236 entities * 1 response/entity * (.8 hours/response * $60/hour) = $113,280.
  - New Entities, Event Reporting: 59 entities * 1 response/entity * (.17 hours/response * $60/hour) = $601.80.
  - Old Entities, Using “Event Reporting Form” : 291 entities * 1 response/entity * (.17 hours/response * .5 hours/response) * $60/hour) = ($5,761.80).

[DOcket No. IC13–16–000]

Commission Information Collection Activities (FERC–604); Comment Request

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Comment request.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507(a)(1)(D), the Federal Energy Regulatory Commission (Commission or FERC) is submitting the information collection FERC–604 (Cash Management Standards) to the Office of Management and Budget (OMB) for review of the information collection requirements. Any interested person may file comments directly with OMB and should address a copy of those comments to the Commission as explained below. The Commission issued a Notice in the Federal Register (78 FR 29359, 5/20/2013) requesting public comments. FERC received no comments on the FERC–604 and is making this notation in its submittal to OMB.

DATES: Comments on the collection of information are due by October 23, 2013.

ADDRESSES: Comments filed with OMB (identified by FERC–604 and Docket No. IC13–16–000) should be sent via email to the Office of Information and Regulatory Affairs: oira_submission@...
OMB Control No.: To be determined.

Title: FERC–604, Cash Management Agreements.

Type of Request: Three-year renewal of the FERC–604 information collection requirements with no changes to the reporting requirements.

Abstract: Cash management or “money pool” programs typically concentrate affiliates’ cash assets in joint accounts for the purpose of providing financial flexibility and lowering the cost of borrowing.

In a 2001 investigation, FERC staff found that balances in cash management programs affecting FERC-regulated entities totaled approximately $16 billion. Additionally, other investigations revealed large transfers of funds (amounting to more than $1 billion) between regulated pipeline affiliates and non-regulated parents whose financial conditions were precarious. The Commission found that these and other fund transfers and the enormous (mostly unregulated) pools of money in cash management programs could detrimentally affect regulated rates.

To protect customers and promote transparency, the Commission issued Order 634–A (2003) requiring entities to formalize in writing and file with the Commission their cash management agreements. The Commission obtained OMB clearance for this new reporting requirement under the FERC–555 information collection (OMB Control No. 1902–0098). However, in subsequent extension requests to OMB for the FERC–555 collection, the Commission failed to include the cash management agreement reporting burden as part of the estimates. In this proceeding, the Commission rectifies the omission by seeking public comment on the reporting requirement in order to update the OMB clearance for cash management agreement filings. The Commission intends to put the reporting requirements under the collection number “FERC–604” and request a new OMB Control Number.

The Commission implemented these requirements in 18 CFR 141.500, 260.400, and 357.5.

Type of Respondents: Public utilities and licensees, natural gas companies, and oil pipeline companies.

Estimate of Annual Burden: The Commission estimates the total Public Reporting Burden for this information collection as:

FERC–604: Cash Management Agreements

The total estimated annual cost burden to respondents is $2,825 [37.5 hours × $70 per hour = $2,625].

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
