collection: Form Number: 1122–0024. U.S. Department of Justice, Office on Violence Against Women

(4) Affected public who will be asked or required to respond, as well as a brief abstract: The affected public includes the approximately 15 grantees of the Tribal Sexual Assault Services Program. The Sexual Assault Services Program (SASP), created by the Violence Against Women Act of 2005 (VAWA 2005), is the first federal funding stream solely dedicated to the provision of direct intervention and related assistance for victims of sexual assault. The SASP encompasses four different funding streams for States and Territories, Tribes, State Sexual Assault Coalitions, Tribal Coalitions, and culturally specific organizations. Overall, the purpose of SASP is to provide intervention, advocacy, accompaniment, support services, and related assistance for adult, youth, and child victims of sexual assault, family and household members of victims, and those collaterally affected by the sexual assault.

The Tribal SASP supports efforts to help survivors heal from sexual assault trauma through direct intervention and related assistance from social service organizations such as rape crisis centers through 24-hour sexual assault hotlines, crisis intervention, and medical and criminal justice accompaniment. The Tribal SASP will support such services through the establishment, maintenance, and expansion of rape crisis centers and other programs and projects to assist those victimized by sexual assault.

(5) An estimate of the total number of respondents and the amount of time estimated

for an average respondent to respond/reply: It is estimated that it will take the approximately 15 respondents (grantees from the Tribal Sexual Assault Services Program) approximately one hour to complete a semi-annual progress report. The semi-annual progress report is divided into sections that pertain to the different types of activities in which grantees may engage. A Tribal SASP grantee will only be required to complete the sections of the form that pertain to its own specific activities.

(6) An estimate of the total public burden (in hours) associated with the collection: The total annual burden hour to complete the data collection forms is 30 hours, that is 15 grantees completing a form twice a year with an estimated completion time for the form being one hour.
