DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 19, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

National Appeals Division

Title: National Appeals Division Customer Service Survey.

OMB Control Number: 0503-0007.

Summary of Collection: The Secretary of Agriculture established the National Appeals Division (NAD) on October 20, 1994, by Secretary's Memorandum 1010-1, pursuant to the Federal Crop Insurance Reform and Department of Agriculture Reorganization Act of 1994 (Pub. L. 103-354, Section 271, dated October 13, 1994). The Act consolidated the appellate functions and staff of several USDA agencies. The intent is to provide for independent hearing and review determinations that resulted from Agency adverse decisions. Hearing Officers conduct evidentiary hearings on adverse decisions or, when the appellant requests they review the Agency's record of the adverse decision without a hearing. Although NAD maintains a database to track appeal requests, the database contains only information necessary to process the appeal request, such as the name, address, filing data, and final results of the appeal. NAD will collect information using a survey.

Need and Use of the Information: NAD wants to gather current data to measure the appellant's perception of the quality of how easy the determination was to read; how intently the Hearing Officer listened to the appellant; and if the appellant would be willing to have the same Hearing Officer hear a future appeal. NAD will also use the information gathered from its surveys to tailor and prioritize training.

Description of Respondents: Individuals or households.

Number of Respondents: 2,000.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 292.

Ruth Brown,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Pomegranates From Chile.

OMB Number: 0579-0375.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of certain fruits and vegetables in accordance with the regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-59).

Under these regulations, fresh pomegranates from Chile may be imported into the continental United States under certain conditions, as listed in 7 CFR 319.56-56, to prevent the introduction of plant pests into the United States. The regulations require information collection activities, including production site registration, list of certified production sites, labeling of containers with the registered production site identified, and a phytosanitary certificate with an additional declaration.

Since the last approval, we have decreased the estimated number of respondents from 7 to 3, and we have also decreased the estimated total annual burden on respondents from 158 hours to 150 hours. We decreased these numbers because we discovered duplications in our calculations.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.5263 hours per response.

Respondents: Fresh pomegranates production sites, packinghouses, importers of fresh pomegranates from Chile, and the national plant protection organization of Chile.

Estimated annual number of respondents: 3.

Estimated annual number of responses per respondent: 95.

Estimated annual number of responses: 285.

Estimated total annual burden on respondents: 150 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of September 2013.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Citrus Canker; Interstate Movement of Regulated Nursery Stock and Fruit From Quarantined Areas.

OMB Number: 0579-0317.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests, such as citrus canker, that are new to or not widely distributed within the United States.

Citrus canker is a plant disease that affects plant and plant parts, including fresh fruit of citrus and citrus relatives (family *Rutaceae*). Citrus canker can cause defoliation and other serious damage to the leaves and twigs of susceptible plants. It can also cause
