FOR FURTHER INFORMATION CONTACT: Chris Allen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-287-9225; email: William.Allen@nrc.gov.

SUPPLEMENTARY INFORMATION: By application dated September 8, 2010, as supplemented January 28, April 1, and September 9, 2011; June 19, June 25, and October 4, 2012; as well as January 16, March 7, and March 21, 2013, PG&E submitted to the NRC, in accordance with part 72 of Title 10 of the Code of Federal Register (10 CFR), a request to amend Materials License No. SNM-2514 for its HB ISFSI site located in Eureka, California. License No. SNM-2514 authorizes PG&E to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the HB Power Plant in an ISFSI at the power plant site for a term of 20 years. Specifically, the amendment proposed modifying License Condition 7.B to add "process wastes" to the Chemical and Physical Form description of greater than Class C waste authorized to be received at the HB ISFSI.

The NRC issued a letter dated April 14, 2011, notifying PG&E that the application was acceptable for review. In accordance with 10 CFR 72.16, a Notice of Docketing was published in the **Federal Register** on May 27, 2011 (76 FR 30980). The Notice of Docketing included an opportunity to request a hearing and to petition for leave to intervene.

The NRC prepared a Safety Evaluation Report (SER) that documents its review and evaluation of the amendment request. Also in connection with this action, the NRC prepared an

Environmental Assessment (EA) and a Finding of No Significant Impact (FONSI). The Notice of Availability of the EA and FONSI for the HB ISFSI was published in the **Federal Register** on September 16, 2013 (78 FR 56944).

Upon completing its review, the staff determined the request complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), as well as the NRC's rules and regulations. As required by the Act and the NRC's rules and regulations in 10 CFR Chapter I, the staff made the appropriate findings which are contained in the SER (ADAMS Accession No. ML13196A475). The NRC approved and issued Amendment No. 3 to Materials License No. SNM-2514, held by PG&E for the receipt, possession, transfer, and storage of spent fuel and associated radioactive materials at the HB ISFSI. Pursuant to 10 CFR 72.46(d), the NRC is providing notice of the action taken. Amendment No. 3 was effective as of the date of issuance, September 17, 2013.

Dated at Rockville, Maryland, this 17th day of September, 2013.

For the Nuclear Regulatory Commission.

Michele Sampson,

Chief, Licensing Branch, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards (ACRS); Meeting of the ACRS Subcommittee on Regulatory Policies and Practices; Notice of Meeting

The ACRS Subcommittee on Regulatory Policies and Practices will hold a meeting on October 2, 2013, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, October 2, 2013—8:30 a.m. until 12:00 p.m.

The Subcommittee will review and discuss the results from the Workshop on Probabilistic Flooding Hazard Assessment (PFHA) and related issues. The Subcommittee will hear presentations by and hold discussions with the NRC staff and other interested persons regarding this matter. The Subcommittee will gather information, analyze relevant issues and facts, and formulate proposed positions and

actions, as appropriate, for deliberation by the Full Committee.

Members of the public desiring to provide oral statements and/or written comments should notify the Designated Federal Official (DFO), Derek Widmayer (Telephone 301-415-7366- or Email: Derek.Widmayer@nrc.gov) five days prior to the meeting, if possible, so that appropriate arrangements can be made. Thirty-five hard copies of each presentation or handout should be provided to the DFO thirty minutes before the meeting. In addition, one electronic copy of each presentation should be emailed to the DFO one day before the meeting. If an electronic copy cannot be provided within this timeframe, presenters should provide the DFO with a CD containing each presentation at least thirty minutes before the meeting. Electronic recordings will be permitted only during those portions of the meeting that are open to the public. Detailed procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 18, 2012, (77 FR 64146-64147).

Detailed meeting agendas and meeting transcripts are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/acrs>. Information regarding topics to be discussed, changes to the agenda, whether the meeting has been canceled or rescheduled, and the time allotted to present oral statements can be obtained from the Web site cited above or by contacting the identified DFO. Moreover, in view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with these references if such rescheduling would result in a major inconvenience.

If attending this meeting, please enter through the One White Flint North building, 11555 Rockville Pike, Rockville, MD. After registering with security, please contact Mr. Theron Brown (Telephone 240-888-9835) to be escorted to the meeting room.

Dated: September 18, 2013.

Cayetano Santos,

Chief, Technical Support Branch Advisory Committee on Reactor Safeguards.
