SUPPLEMENTARY INFORMATION:

Title: Industry Responses to Noncompliance Records.

Type of Request: Extension of an approved information collection.

OMB Control Number: 0583–0146.

Expiration Date: 11/30/2013.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53) as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C., *et seq.*). FSIS protects the public by verifying that meat, poultry, and egg products are safe, wholesome, not adulterated, and correctly labeled and packaged.

FSIS is requesting an extension of the previously approved information collection addressing paperwork requirements related to the collection of information on official meat or poultry establishment and egg products plant responses to noncompliance records.

The noncompliance record, FSIS Form 5400–4, serves as FSIS's official record of noncompliance with one or more regulatory requirements. Inspection program personnel use the form to document their findings and provide written notification of the official establishment's or plant's failure to comply with regulatory requirements. The establishment or plant management

receives a copy of the form and has an opportunity to respond in writing using the noncompliance record form.

FSIS is planning to request a renewal of the Public Health Information System (PHIS) information collection that will include the form for industry responses to noncompliance records. FSIS is requesting this extension to cover industry responses that may be collected before the new PHIS information collection is approved. The OMB approval of this information collection will expire on November 30, 2013.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of 30 minutes per response.

Respondents: Official establishments and plants.

Estimated No. of Respondents: 5,000.

Estimated No. of Annual Responses per Respondent: 5.

Estimated Total Annual Burden on Respondents: 12,500 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Paperwork Reduction Act Coordinator, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW., Room 6077, South Building, Washington, DC 20250; Telephone: (202)690–6510.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS's functions, including whether the information will have practical utility; (b) the accuracy of FSIS's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20253.

Responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record.

SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure fair practices in the food trade.

The Codex Committee on Food Hygiene is responsible for:

(a) Drafting basic provisions on food hygiene applicable to all food;
(b) Considering, amending if necessary, and endorsing provisions on hygiene prepared by Codex commodity committees and contained in Codex commodity standards;

(c) Considering, amending if necessary, and endorsing provisions on hygiene prepared by Codex commodity committees and contained in Codex codes of practice unless, in specific cases, the Commission has decided otherwise

(d) Drafting provisions on hygiene applicable to specific food items or food groups, whether coming within the terms of reference of a Codex commodity committee or not;

(e) Considering specific hygiene problems assigned to it by the Commission;

(f) Suggesting and prioritizing areas where there is a need for microbiological risk assessment at the international level and to develop questions to be addressed by the risk assessors; and
