Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of proposed collection:

The DS-11 solicits data necessary for Passport Services to issue a United States passport (book and/or card format) in the exercise of authorities granted to the Secretary of State in 22 United States Code (U.S.C.) Section 211a et seq. and Executive Order (E.O.) 11295 (August 5, 1966) for the issuance of passports to U.S. nationals.

The issuance of U.S. passports requires the determination of identity, nationality, and entitlement with reference to the provisions of Title III of the Immigration and Nationality Act (INA) (8 U.S.C. 1401-1504), the 14th Amendment to the Constitution of the United States, other applicable treaties and laws, and implementing regulations at 22 CFR parts 50 and 51. The specific regulations pertaining to the Application for a U.S. Passport are at 22 CFR 51.20 through 51.28.

Methodology:

The information collected on the DS-11 is used to facilitate the issuance of passports to U.S. citizens and nationals. The primary purpose of soliciting the information is to establish citizenship, identity, and entitlement to the issuance of the U.S. passport or related service, and to properly administer and enforce the laws pertaining to the issuance thereof.

Passport Services collects information from U.S. citizens and non-citizen nationals when they complete and submit the Application for a U.S. Passport. Passport applicants can either download the DS-11 from the internet or obtain one from an Acceptance Facility/Passport Agency. The form must be completed and executed at an acceptance facility or passport agency, and submitted with evidence of citizenship and identity.

Dated: September 10, 2013.

Brenda S. Sprague,

Deputy Assistant Secretary for Passport Services, Bureau of Consular Affairs, Department of State.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Erie and Genesee Counties, New York

AGENCY: Federal Highway Administration (FHWA), DOT; New York State Department of Transportation (NYSDOT).

ACTION: Revised notice of intent.

SUMMARY: The FHWA is issuing this revised notice to advise the public that FHWA and NYSDOT will not be preparing an Environmental Impact Statement (EIS) for the proposed project to improve or relocate the Williamsville Toll Barrier in the counties of Erie and Genesee, New York (NYSDOT Project Identification Number: 5528.28). A Notice of Intent to prepare an EIS was published in the **Federal Register** on February 16, 2000.

FOR FURTHER INFORMATION CONTACT:

Jonathan McDade, Division Administrator, Federal Highway Administration, New York Division, Leo W. O'Brien Federal Building, 9th Floor, Clinton Avenue and North Pearl Street, Albany, New York 12207, Telephone: (518) 431-4127, or Michael A. Shamma, New York State Thruway Authority, 200 Southern Boulevard, P.O. Box 189, Albany, New York 12201-0189.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the New York State Department of Transportation (NYSDOT), and the New York State Thruway Authority (NYSTA), will not prepare an EIS as previously intended on a proposal to relocate or improve the Williamsville Toll Barrier in the Town of Amherst, Erie County, New York. The purpose of the project was to develop alternatives to address safety and operational concerns, relieve congestion, and address community concerns about air and noise pollution associated with the toll barrier. However, during the timeframe of the environmental studies, significant fiscal restraints, right of way takings, potential environmental impacts, and public controversy have significantly deteriorated the viability of the current project. In addition, new tolling technology, All Electronic Toll Collection (AETC) that is currently in the pilot testing stage for NYSTA, may reduce the lifespan of a new Toll Barrier from 50 years down to 10-15 years. This would reduce the benefit cost ratio to a point where it would not be a prudent financial investment. NYSTA has used relevant information from the environmental studies completed to date and prepared a feasibility

assessment on immediate and mid-term improvements to the current toll barrier that will improve operations, safety, and reduce congestion. Proposed immediate actions in the feasibility study will improve operations and safety, and mid-term improvements have the potential to address all capacity issues at the barrier today, as well as maintain viability of the toll plaza for the next 10 years. The improvements now being considered will not have a significant impact on the environment and will be progressed as Categorical Exclusion(s) or equivalent under the State Environmental Quality Review Process. (Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Authority: 23 U.S.C. 315; 23 CFR 771.123.

Issued on: September 23, 2013.

Chief, Operating Officer, Federal Highway Administration, Albany, New York.
