

Total annual hours: 320 hours
ICRs related to the Chartering Manual for All FCUs:

Chapter 2. Field of Membership Requirements for FCUs

ICR: Single Common Bond and Multiple Common Bond Amendments, NCUA Forms 4015 and 4015-EZ, and FOM Internet Application.

Respondents: 9,915.

Estimated annual burden: 30 minutes.

Total annual hours: 4,957.5.

ICR: Community Charter Conversion and Expansion Applications.

Respondents: 39.

Estimated annual burden: 160 hours.

Total annual hours: 6,240.

Chapter 3. Low-Income CUs and CUs Serving Underserved Areas

ICR: Application to Add an Underserved Area.

Respondents: 21.

Estimated annual burden: 160 hours.

Total annual hours: 3,360.

Chapter 4. Charter Conversions
ICR: NCUA Forms 4000, 4221, 4401, 4505, 4506, 9500, 9501, 9600.

Respondents/record-keepers: 13.

Estimated annual burden: 40 hours.

Total annual hours: 520.

By the National Credit Union Administration Board on September 25, 2013.

Gerard Poliquin,

Secretary of the Board.

BILLING CODE 7535-01-P

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Arts Advisory Panel Meeting

AGENCY: National Endowment for the Arts, National Foundation on the Arts and Humanities.

ACTION: Notice of meeting.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that one meeting of the Arts Advisory Panel to the National Council on the Arts will be held at the Nancy Hanks Center, 1100 Pennsylvania Avenue NW., Washington, DC 20506 as follows (ending time is approximate):

Opera (application review): This meeting will be closed.

Dates: October 31, 2012. 10:00 a.m. to 4:00 p.m. Eastern Time.

FOR FURTHER INFORMATION CONTACT:

Further information with reference to these meetings can be obtained from Ms. Kathy Plowitz-Worden, Office of

Guidelines & Panel Operations, National Endowment for the Arts, Washington, DC 20506; plowitzk@arts.gov, or call 202-682-5691.

SUPPLEMENTARY INFORMATION: The closed portions of meetings are for the purpose of Panel review, discussion, evaluation, and recommendations on financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency. In accordance with the determination of the Chairman of February 15, 2012, these sessions will be closed to the public pursuant to subsection (c)(6) of section 552b of Title 5, United States Code.

Dated: September 25, 2013.

Kathy Plowitz-Worden,

Panel Coordinator, National Endowment for the Arts.

BILLING CODE 7537-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 77 FR 48553, and one comment was received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission (including comments) may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

Comments: Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological

collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW, Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

DATES: Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Comments: As required by 5 CFR 1320.8(d), comments on the information collection activities as part of this study were solicited through publication of a 60-Day Notice in the **Federal Register** on August 14, 2012, at 77 FR 48553. We received one comment, to which we here respond.

Commenter: The Center for Equal Opportunity provided the following comment:

We have a comment on this sentence in yesterday's **Federal Register** notice (77 FR 48553, August 14, 2012, NSF "Notice of Intent To Seek Approval To Establish an Information Collection"): "From this knowledge, a benchmark for progress towards creating a path of equity in engineering for women, and especially for racial/ethnic minorities and persons with disabilities can be established starting with the culture of the centers."

Since the aim is a workplace environment that is welcoming, inclusive, and nondiscriminatory toward all, we suggest this sentence be rewritten as follows in this and future **Federal Register** notices of this kind: "From this knowledge, a benchmark for progress towards creating a path of

equity in engineering for women and men, and for all racial/ethnic groups and persons with disabilities, can be established starting with the culture of the centers.”

Not only is the wording more in keeping with the principles of inclusion and nondiscrimination, but it is generally illegal for the government to show favoritism or even use classifications based on race, ethnicity, or sex. See *Adarand Constructors, Inc. v. Peña*, 515 U.S. 200, 227 (1995) (“all racial classifications . . . must be analyzed by a reviewing court under strict scrutiny”); *Mississippi University for Women v. Hogan*, 458 U.S. 718 (1982) (gender classifications require an “exceedingly persuasive justification”). See also Title VI of the 1964 Civil Rights Act, 42 U.S.C. 2000d (prohibiting discrimination on the basis of race, color, and national origin in federally funded programs). Indeed, such classifications and favoritism are “presumptively invalid” (see *Personnel Administrator v. Feeney*, 442 U.S. 256 (1979)). The wording we suggest is in line with that used by many other federal agencies in their **Federal Register** notices. See, for example, 76 FR 13422 (DHS), 77 FR 27013 (USDA), 77 FR 24268 (DoTreasury), 75 FR 78705 (HHS), 76 FR 8366 (EPA), 77 FR 15745 (DoEnergy), 77 FR 35063 (DoL), etc.

Response: In response to the comment, the Need and Use of Information Collection section was modified to:

The NSF Engineering Research Centers (ERCs) were established in 1985 with one of the goals being the development of a diverse, globally competitive engineering workforce. The ERCs provide information regarding diversity in the Centers through 10-year diversity strategic plans and annual reporting that includes demographic data. However, beyond the numbers, NSF does not have a good understanding of the culture for diversity inside these centers and how it impacts faculty, students and their success. This information will enable NSF to have an unprecedented perspective of the ERC diversity culture. From this knowledge, a benchmark for progress towards creating a path of equity in engineering for women and men, all racial/ethnic groups and persons with disabilities, can be established starting with the culture of the centers. Also, with a better understanding of the diversity efforts and diversity culture within the ERCs, the information will enable us to assess, refine, and improve diversity efforts. We want the ERCs to be inclusive environments for all. This diversity

climate survey will enable us to evaluate how close we are to that goal.

For outside technical expertise, NSF has consulted with the Center for Biorenewable Chemicals (CBiRC) and the Computer Integrated Surgical Systems and Technology (CISST) Engineering Research Centers that have executed similar diversity surveys across their member institutions. These centers had success in developing a survey with content specifically designed to address the experiences unique to ERC personnel. The education, outreach and diversity staff within these specific ERCs have been available for consultation in the developmental process of the survey.

After consideration of this comment, we are moving forward with our submission to OMB.

Title of Collection: Engineering Research Center’s Diversity Climate Survey.

OMB Number: 3145–NEW.

Type of Request: Intent to seek approval to establish an information collection.

Abstract

Proposed Project: We would like to use Survey Monkey to administer a diversity climate survey to the 17, active NSF Engineering Research Centers. This survey will have a mix of rating and open-ended questions. Our goal is to gain an understanding of the climate of diversity within the ERCs.

Need and Use of Information Collection: The NSF ERCs were established in 1985 with one of the goals being the development of a diverse, globally competitive engineering workforce. The ERCs provide information regarding diversity in the Centers through 10-year diversity strategic plans and annual reporting that includes demographic data. However, beyond the numbers, NSF does not have a good understanding of the culture for diversity inside these centers and how it impacts faculty, students and their success. This information will enable NSF to have an unprecedented perspective of ERC diversity culture. From this knowledge, a benchmark for progress towards creating a path of equity in engineering for women, and especially for racial/ethnic minorities and persons with disabilities can be established starting with the culture of the centers. Also, with a better understanding of the diversity efforts and diversity culture within the ERCs, the information will enable us to assess, refine, and improve diversity efforts. We want the ERCs to be inclusive environments for all. This diversity

climate survey will enable us to evaluate how close we are to that goal.

Estimate of the Burden: This survey will have 1,418 respondents and should take no more than 30 minutes to complete. This yields a burden time of 709 hours.

Respondents: Individuals; not-for-profit institutions

Estimated Number of Responses per Survey: One

Dated: September 25, 2013.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Notice of Permits Issued Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permits issued under the Antarctic Conservation Act of 1978, Public Law 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permits issued under the Antarctic Conservation Act of 1978. This is the required notice.

FOR FURTHER INFORMATION CONTACT: Adrian Dahood, ACA Permit Officer, Division of Polar Programs, Rm. 755, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Or by email: ACApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: On August 22, 2013 the National Science Foundation published a notice in the **Federal Register** of a permit application received. The permit was issued on September 25, 2013 to: Jennifer Martin, Permit No. 2014–008.

Nadene G. Kennedy,

Polar Coordination Specialist, Division of Polar Programs.
