Food Safety and Inspection Service

Title: Egg Product Industry Survey.

OMB Control Number: 0583-New.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has

been delegated the authority to exercise the functions of the Secretary as provided in the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031-1056). To assist FSIS in meeting its strategic goal to protect public health by significantly reducing the prevalence of foodborne hazards from egg products, the agency requires accurate and up-to-date information about industry's use of food safety practices and technologies. FSIS will use a survey to track trends and adoption rates of practices and technologies. In addition, FSIS will address issues currently facing FSIS and the egg products processing industry.

Need and Use of the Information: The results of the egg products industry survey will provide reliable and valid information regarding food safety practices in FSIS-regulated plants that can be used to address a broad variety of the agency's analyses needs. The survey will also provide information needed for analyses of public health risks that are not available from FSIS inspectors and other data sources.
