SUPPLEMENTARY INFORMATION:**I. What information is EPA particularly interested in?**

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.

2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

3. Enhance the quality, utility, and clarity of the information to be collected.

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Safer Detergent Stewardship Initiative (SDSI) Program.

ICR number: 2261.03.

OMB control number: 2070-0171.

ICR status: This ICR is currently scheduled to expire on May 31, 2014. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in

the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Safer Detergent Stewardship Initiative (SDSI) is a voluntary program, administered by EPA to offer resources, and recognition to businesses involved in the transition to safer surfactants. Surfactants are a major ingredient in cleaning products such as detergents, cleaners, airplane deicers and fire-fighting foams. Safer surfactants are those that break down quickly to non-polluting compounds. Under SDSI, businesses that have fully transitioned to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Champion status. At this level, the participant is invited to the SDSI Awards ceremony, listed on the EPA SDSI Web site as a Champion, and may use a special logo in their literature to help explain their participation in the program. Businesses that commit to a full and timely transition to safer surfactants, or (for non-profits, academic institutions, etc.) can document outstanding efforts to encourage the use of safer surfactants, are granted Partner status. This category provides recognition of significant accomplishments towards the use of safer surfactants. Partners will be listed on the EPA SDSI Web site and may be granted recognition as a Champion in the future if appropriate. This information collection addresses reporting activities that support the administration of the SDSI program.

Responses to this collection of information are voluntary. Respondents may claim all or part of a response confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 10 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are establishments or organizations engaged in formulating, producing,

purchasing, or distributing surfactants or products containing surfactants.

Estimated total number of potential respondents: 14.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 140 hours.

Estimated total annual costs: \$8,232. This includes an estimated burden cost of \$8,232 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is no change in the number of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document, pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

The FOIAonline system is used by participating agencies to electronically receive, process, track and store requests from the public for federal records; post responsive records to a Web site; collect data for annual reporting requirements to the Department of Justice, and manage internal FOIA administration activities. In addition to the current FDMS functionalities, the FOIA system allows the public to submit and track FOIA requests and appeals; access requests and responsive records online, and obtain the status of requests filed with participating agencies.
