SUPPLEMENTARY INFORMATION:

I. Abstract

In accordance with the President's initiative to create opportunities to advance science, technology, engineering, and mathematics (STEM) education, this clearance request pertains to the collection of information associated with the administration of electronic application/registration/volunteer forms, parental consent forms, media release forms, safety rules acknowledgement forms, and participant feedback forms for the NASA Great Moonbuggy Race. This vehicular engineering activity connects classroom training to tangible activities that enable practical application of STEM disciplines, cultivates innovative thinking, and embraces teamwork. This event is inspired by the original lunar rover that piloted across the moon's surface on the early 1970's during Apollo 15, 16, and 17 missions. Participation is voluntary and targets high school and college students. Registration is required to participate.
