TFR Temporary Final Rule

A. Regulatory History and Information

The Coast Guard is issuing this Temporary Final Rule (TFR) without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a Notice of Proposed Rulemaking (NPRM) with respect to this rule because publishing an NPRM and delaying the rule’s effective date would be contrary to public interest. The Coast Guard was notified about this repair project on April 14, 2013 therefore there was not enough time to publish an NPRM. During the repair project, a crane and barge will be placed under the Pelican Island Bridge; therefore immediate action is needed to protect public boaters and their vessels from potential hazards associated with this repair work.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

The legal basis and authorities for this rule are found in 33 U.S.C. 1231, 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; and Department of Homeland Security Delegation No.

0170.1, which collectively authorize the Coast Guard to propose, establish, and define regulatory safety zones. The purpose of this safety zone is to protect public boaters and their vessels from potential safety hazards associated with the repair of the Pelican Island Bridge.

C. Discussion of the Final Rule

The Coast Guard is establishing a temporary Safety Zone in Galveston Channel to ensure public safety during the Pelican Island Bridge Repair Project. This area includes all waters of Galveston Channel under and around the Pelican Island Bridge, enclosed within the area extending 50 feet out from position 29°18′38.23″ N, 094°49′24.84″ W. Entry into this zone is prohibited unless specifically authorized by the Captain of the Port of Houston-Galveston or a designated representative from October 1, 2013 to December 15, 2015.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under that Order.

It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS) because this regulation will only be enforced from October 1, 2013 to December 15, 2015. Notifications to the marine community will be made through Vessel Traffic Services and Broadcast Notice to Mariners. The impacts on routine navigation are expected to be minimal.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the

potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small business, not-for-profit organizations that are independently owned and operated and are not dominant in their fields and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: vessels intending to transit or anchor in the Galveston Channel from October 1, 2013 to December 15, 2015. This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: (1) Vessels are able to transit around the affected area; (2) vessels may request permission from the Captain of the Port to transit through the safety zone; and (3) the number of vessels affected by the safety zone is expected to be minimal.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the “**FOR FURTHER INFORMATION CONTACT**” section above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132,

Federalism, if it has a substantial government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the “**FOR FURTHER INFORMATION CONTACT**” section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes,

or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves establishing a temporary safety zone in the Galveston Channel to maintain public safety during the Pelican Island Bridge Repair Project. This action is necessary to protect public boaters and their vessels. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Resources of the South Atlantic; Trip Limit Reduction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; trip limit reduction.

SUMMARY: NMFS reduces the commercial trip limit for vermilion snapper in or from the exclusive economic zone (EEZ) of the South Atlantic to 500 lb (227 kg), gutted weight. This trip limit reduction is necessary to protect the South Atlantic vermilion snapper resource.

DATES: This rule is effective 12:01 a.m., local time, October 16, 2013, until 12:01 a.m., local time, January 1, 2014.

FOR FURTHER INFORMATION CONTACT: Catherine Hayslip, telephone: 727–824–5305, email: *Catherine.Hayslip@noaa.gov*.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery includes vermilion snapper in the South Atlantic and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The commercial ACL (commercial quota) for vermilion snapper in the South Atlantic is divided into two, 6-month time periods, and is 466,480 lb (211,592 kg), round weight, for the January 1 through June 30, 2013, fishing season, and 466,480 lb (211,592 kg), round weight, for the July 1 through December 31, 2013, fishing season, as specified in 50 CFR 622.190(a)(4)(i)(A) and (a)(4)(ii)(A), respectively. Any unused portion of the January 1 through June 30, 2013, fishing season quota is added to the July 1 through December 31, 2013, fishing season quota, as specified in 50 CFR 622.190(a)(4)(iii). The unused portion of the January 1 through June 30, 2013, fishing season quota was 146,798 lb (66,586 kg), round weight. Therefore 146,798 lb (66,586 kg), round weight, was added to the July 1 through December 31, 2013 fishing season quota of 466,480 lb (211,592 kg), round weight, for a total of 613,278 lb (278,178 kg), round weight.

Under 50 CFR 622.191(a)(6)(ii), NMFS is required to reduce the commercial trip limit for vermilion snapper from 1,000 lb (454 kg), gutted weight, to 500 lb (227 kg), gutted weight, when 75 percent of the fishing season quota is

reached or projected to be reached, by filing a notification to that effect with the Office of the Federal Register, as implemented by the final rule for Regulatory Amendment 18 (78 FR 47574, August 6, 2013). Based on current statistics, NMFS has determined that 75 percent of the available commercial quota for the July 1 through December 31, 2013, fishing season, for vermilion snapper will be reached on or before October 16, 2013. Accordingly, NMFS is reducing the commercial trip limit for vermilion snapper to 500 lb (227 kg), gutted weight, in or from the South Atlantic EEZ at 12:01 a.m., local time, on October 16, 2013. This 500-lb (227-kg) trip limit will remain in effect until the quota is reached and the commercial sector closes, or through December 31, 2013, whichever occurs first.

Classification

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of South Atlantic vermilion snapper and is consistent with the Magnuson-Stevens Act, the FMP, and other applicable laws.

This action is taken under 50 CFR 622.191(a)(6) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best available scientific information recently obtained from the fishery. Pursuant to 5 U.S.C. 553(b)(B), the Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirements to provide prior notice and the opportunity for public comment on this temporary rule. Such procedures are unnecessary because the rule itself has already been subject to notice and comment, and all that remains is to notify the public of the trip limit reduction.

Allowing prior notice and opportunity for public comment is contrary to the public interest because of the need to immediately implement this action to protect vermilion snapper because the capacity of the fishing fleet allows for rapid harvest of the ACL (quota). Prior notice and opportunity for public comment for this trip limit reduction would require time and

would result in the trip limit reduction not being implemented, and increase the probability that the commercial ACL (commercial quota) will be exceeded.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: October 2, 2013.

*Deputy Assistant Administrator for
Regulatory Programs, performing the
functions and duties of the Assistant
Administrator for Fisheries, National Marine
Fisheries Service.*

[Project No. 12714-003]

H2O Holdings, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On August 14, 2013, H2O Holdings, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Phantom Canyon/South Slope Pumped Storage Project, located on Phantom Creek, near Canon City, in Fremont, Pueblo, and El Paso Counties, Colorado. The project would occupy federal lands administered by the U.S. Bureau of Land Management. The final transmission line corridor is still under evaluation, but portions may occupy federal lands administered by the U.S. Department of the Army. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed South Slope Pumped Storage Project would consist of: (1) An upper power reservoir with a storage capacity of approximately 6,000 acre-feet, retained by a new 180-foot-high, 4,925-foot-long concrete-faced earth embankment; (2) a lower reservoir with a power storage capacity of about 6,400 acre-feet and a reserve capacity for non-project use of about 44,600 acre-feet, retained by building three new dams and a 150-foot long and 24-foot-high saddle dike (dam no. 1 would be 6,635 feet long and 140 feet high, dam no. 2 would be 2,710 feet long and 140 feet

high, and dam no. 3 would be 2,200 feet long and 620 feet high); (3) twin 22-foot-diameter, steel penstocks, each about 7,150 feet long, both bifurcating at the powerhouse; (4) a concrete and steel powerhouse with four 110-megawatt (MW) units, for a total capacity of 440 MW; (5) four welded-steel tailraces connecting the powerhouse units and the lower power reservoir; (6) a 30-mile-long, 230-kilovolt transmission line; (7) a 5-foot-diameter, 5.5-mile-long non-project pipeline to provide water to the lower reservoir from the Lester Atterbury Ditch diversion on the north side of the Arkansas River; and (8) appurtenant facilities. The proposed project would have an average annual generation of 1,194,864 megawatt-hours.

Applicant Contacts: Ms. Joy Focht, H2O Holdings, LLC, 1485 Garden of the Gods Rd., Ste. 160, Colorado Springs, CO 80907; telephone: (719) 473-7763 (ext. 202) and Mr. Sam Houston, H2O Holdings, LLC, 1485 Garden of the Gods Rd., Ste. 160, Colorado Springs, CO 80907; telephone: (970) 948-7300.

FERC Contact: Jim Fargo, (202) 502-6095 or via email at james.fargo@ferc.gov.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. (Equitrans), 625 Liberty Avenue, Suite 1700, Pittsburgh, Pennsylvania 15222-3111, filed in Docket No. CP13-547-000, a prior notice request pursuant to sections 157.205, 157.208(c), and 157.210 of the Commission's regulations under the Natural Gas Act (NGA). Equitrans seeks authorization to construct a 12,913 horsepower turbine compressor at its existing Jefferson Compressor Station in Green County, Pennsylvania, at an estimated cost of approximately \$30,800,000. The project is intended to provide approximately 600 million cubic feet per day of additional capacity to serve the needs of producers in the Marcellus Shale region of northern West Virginia and Southwestern Pennsylvania, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The filing may be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Paul W. Diehl, Senior Counsel—Midstream, at EQT Corporation, 625 Liberty Avenue, Suite 1700, Pittsburgh, PA 15222, or by calling (412) 395-5540, or by email to PDiehl@eqt.com.

Any person or the Commission's Staff may, within 60 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and, pursuant to section 157.205 of the Commission's Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the

day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the NGA.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's

environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.
