TABLE 1—EDAQMD NEGATIVE DECLARATIONS—Continued

CTG source category	CTG document title
Polyester Resin	EPA–450/3–83–008—Control of VOC Emissions from Manufacture of High-Density Polyethylene, Polypropylene, and Polystyrene Resins.
	EPA–450/3–83–006—Control of VOC Fugitive Emissions from Synthetic Organic Chemical Polymer and Resin Manufacturing Equipment.
Rubber Tires	EPA–450/2–78–030—Control of Volatile Organic Emissions from Manufacture of Pneumatic Rubber Tires.

Source: 2006 RACT SIP at 9.

We are proposing to find that the EDAQMD 2006 RACT SIP submission, including all of these negative declarations, adequately demonstrates that the applicable SIP rules for all CTG source categories operating within the El Dorado AQMD satisfy RACT and that there are no existing major stationary sources of NO_x or VOC in El Dorado County subject to RACT for the 1997 8-hour ozone NAAQS.

C. EPA Recommendations to Strengthen the SIP

We recommend strengthening the solvent cleaning limits in Rule 225, ''Solvent Cleaning Operations (Degreasing)'' and coating limits in Rule 215, ''Architectural Coatings,'' to more closely match corresponding requirements adopted by the Sacramento Metro AQMD and Placer County Air Pollution Control District.[3] These recommendations will strengthen the SIP, but are not required to satisfy RACT. We discuss these recommendations further in our 2006 RACT SIP TSD.

D. Proposed Action and Request for Public Comment

Based on the evaluations discussed above and more fully in our 2006 RACT SIP TSD, we are proposing to conclude that EDAQMD's 2006 RACT SIP submission satisfies CAA section 182 RACT requirements for the 1997 8-hour ozone NAAQS and to fully approve this submission into the California SIP pursuant to section 110(k)(3) of the Act. We will accept comments from the public on this proposal for the next 30 days. Unless we receive convincing new information during the comment period, we intend to publish a final approval action that will incorporate this RACT submission into the federally enforceable SIP.

[3] See Sacramento Metro AQMD Rule 466, Solvent Cleaning, section 301.1 which specifies a 25 grams/liter VOC limit for general solvent cleaning; 40 CFR Part 59, subpart D, National Volatile Organic Compound Emission Standards for Architectural Coatings; and CARB's suggested control measures for architectural coatings at: *http://www.arb.ca.gov/coatings/arch/Approved_2007_SCM.pdf.*

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. This action merely proposes to approve State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this proposed action:

- Is not a ''significant regulatory action'' subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, with practical and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed action does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401 *et seq.*

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52, 62 and 70

[EPA–R07–OAR–2012–0410; FRL 990–64-Region 7]

Approval and Promulgation of Implementation Plans; Approval and Promulgation of State Air Quality Plans for Designated Facilities and Pollutants, State of Iowa; Control of Emissions From Existing Hospital/Medical/Infectious Waste Incinerator Units, Negative Declaration and 111(d) Plan Rescission; Approval and Promulgation of Operating Permits Program, State of Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve, through direct final rulemaking, revisions to the State of Iowa's State Implementation Plan (SIP), Title V program and Clean Air Act (CAA) section 111(d) Plan. The purpose of these revisions is to make general updates to existing state air quality rules, approve an exemption from constructing permitting for engines used in periodic pipeline testing, approve changes to State rules regarding regional haze requirements, and to approve adoption of Federal regulations including the National Ambient Air Quality Standards (NAAQS) for 2008 Ozone, 2008 Lead, and 2010 Nitrogen Dioxide. EPA is proposing approval of the SIP provisions pursuant to section 110 of the CAA.

EPA is also proposing to approve the State of Iowa's negative declaration and withdrawal of its section 111(d)/129 plan for Hospital Medical Infectious Waste Incinerators (HMIWI) units. EPA is proposing approval of these actions pursuant to section 111 of the CAA.

EPA is also proposing to approve two minor administrative changes to the Title V program, pursuant to section 500 of the CAA.

DATES: Comments on this proposed action must be received in writing by November 25, 2013.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R07–OAR–2012–0410; by mail to Michael Jay, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Blvd., Lenexa, KS 66219. Comments may also be submitted electronically or through hand delivery/courier by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the rules section of this **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Michael Jay at (913) 551–7460, or by email at *jay.michael@epa.gov*.

SUPPLEMENTARY INFORMATION: In the final rules section of today's **Federal Register**, EPA is approving the State's revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.

Dated: September 6, 2013.

Karl Brooks,

Regional Administrator, Region 7.

Receipt of Several Pesticide Petitions Filed for Residues of Pesticide Chemicals in or on Various Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of filing of petitions and request for comment.

SUMMARY: This document announces the Agency's receipt of several initial filings of pesticide petitions requesting the establishment or modification of regulations for residues of pesticide chemicals in or on various commodities.

DATES: Comments must be received on or before November 25, 2013.

ADDRESSES: Submit your comments, identified by docket identification (ID) number and the pesticide petition number (PP) of interest as shown in the body of this document, by one of the following methods:

- *Federal eRulemaking Portal: http://www.regulations.gov.* Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.
- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001.
- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at *http://www.epa.gov/dockets/contacts.html.*

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at *http://www.epa.gov/dockets*.

FOR FURTHER INFORMATION CONTACT: Robert McNally, Biopesticides and Pollution Prevention Division (BPPD) (7511P), (703) 305–7090, email address: *BPPDFRNotices@epa.gov;* or the Registration Division (RD) (7505P), (703) 305–7090, email address: *RDFRNotices@epa.gov.*; Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001. As part of the mailing address, include the contact person's name, division, and mail code.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

If you have any questions regarding the applicability of this action to a particular entity, consult the person listed at the end of the pesticide petition summary of interest.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR Part 2.
