RIN 2700-AE13

#### NASA FAR Supplement: Proposal Adequacy Checklist

**AGENCY:** National Aeronautics and Space Administration.

**ACTION:** Proposed rule.

**SUMMARY:** NASA is proposing to amend the NASA FAR Supplement (NFS) to incorporate a proposal adequacy checklist for proposals in response to solicitations that require the submission of certified cost or pricing data.

**DATES:** Interested parties should submit comments to NASA at the address below on or before December 30, 2013 to be considered in formulation of the final rule.

#### SUPPLEMENTARY INFORMATION:

##### A. Background

This proposed rule supports the NASA Assistant Administrator for Procurement's "Reducing Transaction Costs in NASA Procurements" initiative

by incorporating the requirement for a proposal adequacy checklist into the NFS at 1815.408-70(c), and associated solicitation provision at NFS 1852.215-85, to ensure offerors take responsibility for submitting thorough, accurate, and complete proposals. The provision will be included in solicitations that require the submission of certified cost or pricing data.

##### B. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866. This proposed rule is not a major rule under 5 U.S.C. 804.

##### C. Regulatory Flexibility Act

NASA does not expect this proposed rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. However, an Initial Regulatory Flexibility Analysis has been performed and is summarized as follows:

This proposed rule amends the NFS to add a checklist for NASA contractors to complete under solicitations that require the submission of certified cost or pricing data. This rule supports the NASA Assistant Administrator for Procurement's "Reducing Transaction Costs in NASA Procurements" initiative by increasing uniformity across NASA and minimizing local variations in this area which will decrease proposal preparation costs.

The objective of this proposed rule is to ensure that offerors submit thorough, accurate, and complete proposals. By completing the checklist, offerors will be able to self-validate the adequacy of their proposals which will improve the quality of their initial proposal submissions. This will reduce the need for contractors to rework their initial proposal submissions which will save the Government time and resources in performing the evaluation of the proposal.

The rule will apply to actions where certified cost or pricing data is required. Based on data collected in FPDS-NG for FY2010-2012, there are on average 1162
