BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE

Department of the Army; Corps of Engineers

Notice of Availability of a Draft Supplement to the July 2011 Environmental Impact Statement for the proposed SR 1409 (Military Cutoff Road) Extension and Proposed US 17 Hampstead Bypass New Hanover and Pender Counties in North Carolina, NCDOT TIP Projects U-4751 and R-3300

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Availability.

SUMMARY: The U.S. Army Corps of Engineers (COE), Wilmington District, Wilmington Regulatory Division is issuing this notice to advise the public that a State of North Carolina funded Supplement Draft Environmental Impact Statement (DEIS) has been prepared describing changes since the

release of the July 2011 DEIS for a road improvement project starting at Military Cutoff Road in New Hanover County to north of Hampstead along US 17, Pender County, NC (TIP Projects U-4751 and R-3300). The changes which have necessitated this new supplement include an additional interchange on the north end of the project corridor as well as additional lanes not disclosed in the 2011 DEIS published in the **Federal Register** on September 23, 2011 (76 FR 59122).

DATES: Written comments on the Draft EIS will be received until December 16, 2013.

ADDRESSES: Mr. Brad Shaver, Regulatory Project Manager, Wilmington Regulatory Field Office, 69 Darlington Ave., Wilmington, NC 28403 or Mr. Jay McInnis, Project Engineer, North Carolina Department of Transportation, 1548 Mail Service Center, Raleigh, NC 27699-1548.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and DEIS can be directed to Mr. Brad Shaver, COE—Regulatory Project Manager, telephone: (910) 251-4611 or Mr. Jay McInnis Jr., P.E., NCDOT—Project Engineer, telephone: (919) 707-6029.

SUPPLEMENTARY INFORMATION: The COE in cooperation with the North Carolina Department of Transportation prepared a DEIS, originally published in 2011, on a proposal to make transportation improvements to the US 17 and Market Street (US 17 Business) corridor in northern New Hanover and southern Pender Counties. Two North Carolina Department of Transportation Improvement Program (TIPs U-4751 and R-3300) projects are being evaluated as part of the US 17 Corridor Study.

The purpose of the US 17 Corridor Study project is to improve the traffic carrying capacity and safety of the US 17 and Market Street corridor in the project area. The project study area is roughly bounded on the west by I-40, on the north by the Northeast Cape Fear River, Holly Shelter Game Lands to the east, and Market Street and US 17 to the south.

This project is being reviewed through the Merger 01 process designed to streamline the project development and permitting processes, agreed to by the COE, North Carolina Department of Environment and Natural Resources (Division of Water Quality, Division of Coastal Management), Federal Highway Administration (for this project not applicable), and the North Carolina Department of Transportation and supported by other stakeholder agencies

and local units of government. The other partnering agencies include: U.S. Environmental Protection Agency; U.S. Fish and Wildlife Service; N.C. Wildlife Resources Commission; N.C. Department of Cultural Resources; and the Wilmington Metropolitan Planning Organization. The Merger process provides a forum for appropriate agency representatives to discuss and reach consensus on ways to facilitate meeting the regulatory requirements of Section 404 of the Clean Water Act during the NEPA/SEPA decision-making phase of transportation projects.

Through input from the public and resource agencies the project has been changed to include a second interchange at the northern terminus. Additionally, the project currently proposes additional travel lanes between a previously proposed interchange south of the Topsail High School and the aforementioned northern interchange. These changes were considered substantial changes which the public has not had input and thus necessitates the development and release of the supplement Draft EIS. The original Draft EIS and new Supplement DEIS is available for review on the project Web page: <http://www.ncdot.gov/projects/US17HampsteadBypass/>.

Any person having difficulty in viewing the document online can contact the COE project manager or the NCDOT project manager for a CD copy of the document.

After distribution and review of the Supplement Draft EIS and Final EIS, the Applicant understands that the U.S. Army Corps of Engineers in coordination with the North Carolina Department of Transportation will issue a Record of Decision (ROD) for the project. The ROD will document the completion of the EIS process and will serve as a basis for permitting decisions by federal and state agencies.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the US Army Corps of Engineers at the address provided. The Wilmington District will periodically issue Public Notices soliciting public and agency comment on the proposed action and alternatives to the proposed action as they are developed.

Dated: October 18, 2013.

Henry Wicker,

Assistant Chief, Wilmington Regulatory Division.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Evaluation of a District Wide Implementation of a Professional Learning Community Initiative.

OMB Control Number: 1850-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Individuals or households.

Total Estimated Number of Annual Responses: 806.

Total Estimated Number of Annual Burden Hours: 427.

Abstract: This study aims to address the need for systematic information about district-wide implementation of professional learning communities (PLCs) as a critical element in improving teacher quality and instruction, thereby contributing to increased student achievement. The study will survey (online) a population of teacher participants in school-based PLCs and interview principals face to face about the context and their perceptions of the initiative, pre- and post-implementation. Data collection from teachers will focus on what the PLCs do, how they operate, and to what extent they produce the outcomes expected of them as framed by six conceptual attributes of PLCs and five specific tasks. Data collection from principals will focus on contextual information about school culture and conditions such as resources that support implementation. Teachers and principals will also provide their reflections on the challenges of implementing PLCs and their suggestions for improvement. The analysis will enable comparisons among PLCs within and across schools. Study findings are expected to inform both theory and practice related to
