BILLING CODE 4210-67-P

**DEPARTMENT OF HOUSING AND
URBAN DEVELOPMENT**

[Docket No. FR-5681-N-42]

**Federal Property Suitable as Facilities
To Assist the Homeless**

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Juanita Perry, Department of Housing and Urban Development, 451 Seventh Street SW., Room 7262, Washington, DC 20410; telephone (202) 402-3970; TTY number for the hearing- and speech-impaired (202) 708-2565, (these telephone numbers are not toll-free), or call the toll-free Title V information line at (800) 927-7588.

SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: October 24, 2013.

Mark Johnston,

Deputy Assistant Secretary for Special Needs.

[FR Doc. 2013-25573 Filed 10-31-13; 8:45 am]

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Office of the Secretary

**Wildland Fire Executive Council
Meeting Schedule**

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of Meeting.

SUMMARY: In accordance with the requirements of the Federal Advisory

Committee Act, 5 U.S.C. App., 2, the U.S. Department of the Interior, Office of the Secretary, Wildland Fire Executive Council (WFEC) will meet as indicated below.

DATES: The next meeting will be held November 15, 2013.

ADDRESSES: The meetings will be held from 10:00 a.m. to 2:00 p.m. on November 15, 2013 at the Main Interior Building, 1849 C Street, Room 2654 NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Shari Eckhoff, Designated Federal Officer, 300 E Mallard Drive, Suite 170, Boise, Idaho 83706; telephone (208) 334-1552; fax (208) 334-1549; or email Shari_Eckhoff@ios.doi.gov.

SUPPLEMENTARY INFORMATION: The WFEC is established as a discretionary advisory committee under the authorities of the Secretary of the Interior and Secretary of Agriculture, in furtherance of 43 U.S.C. 1457 and provisions of the Fish and Wildlife Act of 1956 (16 U.S.C. 742a-742j), the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 *et. seq.*), the National Wildlife Refuge System improvement Act of 1997 (16 U.S.C. 668dd-668ee), and the National Forest Management Act of 1976 (16 U.S.C. 1600 *et. seq.*) and in accordance with the provisions of the Federal Advisory Committee Act, as amended, 5 U.S.C. App. 2. The Secretary of the Interior and Secretary of Agriculture certify that the formation of the WFEC is necessary and is in the public interest.

The purpose of the WFEC is to provide advice on coordinated national-level wildland fire policy and to provide leadership, direction, and program oversight in support of the Wildland Fire Leadership Council. Questions related to the WFEC should be directed to Shari Eckhoff (Designated Federal Officer) at Shari_Eckhoff@ios.doi.gov or (208) 334-1552 or 300 E. Mallard Drive, Suite 170, Boise, Idaho, 83706-6648.

Meeting Agenda: The meeting agenda will include: (1) Welcome and introduction of council members; (2) Final approval of the Cohesive Strategy National Report; (3) public comments; (4) Develop recommendations to go forward to the Secretary of the Interior and Secretary of Agriculture through the Wildland Fire Leadership Council; and (5) closing remarks. Participation is open to the public.

Public Input: All WFEC meetings are open to the public. Members of the public who wish to participate must notify Shari Eckhoff at Shari_Eckhoff@ios.doi.gov no later than the Friday preceding the meeting. Those who are not committee members and wish to

present oral statements or obtain information should contact Shari Eckhoff via email no later than the Friday preceding the meeting. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited.

Questions about the agenda or written comments may be emailed or submitted by U.S. Mail to: Department of the Interior, Office of the Secretary, Office of Wildland Fire, Attention: Shari Eckhoff, 300 E. Mallard Drive, Suite 170, Boise, Idaho 83706-6648. WFEC requests that written comments be received by the Friday preceding the scheduled meeting. Attendance is open to the public, but limited space is available. Persons with a disability requiring special services, such as an interpreter for the hearing impaired, should contact Ms. Eckhoff at (202) 527-0133 at least seven calendar days prior to the meeting.

Dated: October 28, 2013.

Shari Eckhoff,

Designated Federal Officer.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLWYR05000.L51100000.GN0000.
LVEMK10CW370-WYW-140590]

**Notice of Availability of the Final
Environmental Impact Statement for
the Gas Hills In Situ Recovery Uranium
Project, Fremont and Natrona
Counties, WY**

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, the Bureau of Land Management (BLM) has prepared a Final Environmental Impact Statement (EIS) for the Gas Hills In Situ Recovery (ISR) Uranium Project and by this notice is announcing a 30-day availability period prior to preparing a Record of Decision (ROD).

DATES: The Gas Hills ISR Uranium Project Final EIS will be available until December 2, 2013.

ADDRESSES: Copies of the Final EIS and other documents pertinent to this proposal may be examined at the following BLM offices:

- Lander Field Office, 1335 Main Street, Lander, WY 82520;
- High Plains District Office, 2987 Prospector Drive, Casper, WY 82604;

- Wind River/Bighorn Basin District Office, 101 South 23rd, Worland, WY 82401; and

- Wyoming State Office, 5353 Yellowstone Road, Cheyenne, WY 82009.

Interested persons may also view and download the documents online at: www.blm.gov/wy/st/en/info/NEPA/documents/lfo/gashills.html.

FOR FURTHER INFORMATION CONTACT: Tom Sunderland, Project Manager, telephone: 307-332-8400; mailing address: 1335 Main Street, Lander, WY 82520; email: Gas_Hills_Uranium_EIS_WY@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The applicant, Power Resources Inc., a wholly owned subsidiary of Cameco US Holdings, Inc., doing business as Cameco Resources, has filed a Plan of Operations pursuant to 43 CFR subpart 3809 regulations to construct uranium recovery facilities including: Waste water disposal facilities; access roads; pipelines and utility lines; delineation, injection and production wells; and improving one existing and constructing one new equipment-housing satellite facility used in the ISR process. The project would be located in eastern Fremont and western Natrona counties, approximately 45 road miles east of Riverton, Wyoming, and approximately 65 road miles west of Casper, Wyoming.

The boundary of the Gas Hills Project Area (GHPA) encompasses approximately 8,500 acres, including approximately 1,300 acres of surface disturbance from the proposed project. Approximately 15 percent of the surface within the GHPA historically was disturbed by previous mining and exploration activities. This disturbance includes an existing warehouse structure (the Carol Shop) and access road (the AML Road).

If the proposed mining operation is not approved, existing reclamation responsibilities under the No-Action alternative would require Cameco to remove and reclaim the existing disturbance once ongoing exploratory activities are concluded. This reclamation would include a minimum of 26.7 acres for the removal of the Carol Shop. If no other use for the existing 1.8 miles of road were identified, it would be removed and reclaimed, for an

additional 10.9 acres. Additional notice-level activities would need to be reclaimed as well for a total of 40.2 acres. Existing reclamation responsibilities and notice-level exploration activities allow the current use of the road and Carol Shop.

The Plan of Operations identifies five production areas, or mine units, with subsurface ore bodies within the Wind River Formation for ISR extraction. Construction, operation, groundwater restoration, and surface reclamation of five mine units would occur during an estimated period of approximately 25 years. At the end of the project, all surface structures would be removed, and all disturbances would be re-contoured and reclaimed. In accordance with Nuclear Regulatory Commission (NRC) regulations, any radiological contaminated wastes, including any processing pipe and equipment as well as solid residue or liners from evaporation ponds, would be removed from the Project Area and disposed.

The Final EIS addresses the direct, indirect and cumulative impacts of the Proposed Action and three alternatives including the No Action Alternative, the Resource Protection Alternative and the BLM-Preferred Alternative.

The Proposed Action Alternative is the project proposed by Cameco as identified by the Plan of Operations, the NRC license application, and the Wyoming Department of Environmental Quality Land Quality Division's (WDEQ-LQD) Mine Permit Application #687.

In January 2004, the NRC approved the amendment of Cameco's license SUA-1548 to include operation of the proposed Gas Hills project as a satellite to the Smith-Ranch Highland facility. The WDEQ-LQD approved Cameco's Mine Permit #687 August 2001. Under the Resource Protection Alternative, the project would utilize the same ISR process occurring over the same time period as the Proposed Action, but modifications to the project would reduce surface disturbance and heavy truck transportation. Modifications would include on-site resin processing to produce slurry, submitting an annual development plan, construction timing constraints, a disturbance offset for an additional satellite facility, enhanced reclamation, and power line burial.

The BLM-Preferred Alternative, developed in response to comments received on the Draft EIS, would utilize the same ISR process over the same time period as the Proposed Action with the addition of several elements designed to reduce environmental impacts. These additions would include annual planning and reporting, site-specific

reclamation planning and success criteria, construction timing constraints and additional on-site processing.

The Notice of Intent to prepare an EIS was published in the **Federal Register** on September 7, 2010 (75 FR 54384). The scoping comments received in response to this Notice were used while preparing the Draft EIS to help in developing alternatives and to identify issues to be analyzed in the impact analysis. The Notice of Availability of the Draft EIS was published in the **Federal Register** on November 16, 2012 (77 FR 68814). A 45-day public comment period for the Draft EIS was held from November 16, 2012, to December 31, 2012, and then extended by the BLM to January 31, 2013, in response to requests from the public.

Notable changes to the EIS based on comments received include the following:

- Clarify and update the description of specific aspects of the Proposed Action, including evaporation pond use, size and methods to exclude wildlife; disposal methods for waste water and radioactive waste; status and results of exploratory drilling for wastewater disposal wells; and water use and consumption.

- Revise specific aspects of the Project Alternatives, including adding a BLM-Preferred Alternative; eliminating the alternative to reduce the number of evaporation ponds; eliminating burial of overhead power lines from the BLM-Preferred Alternative.

- Revise the air quality analysis to reflect changes to the proponent's transportation plan (i.e., increase in waste hauling trips) and recently updated ambient air quality limits.

- Add newly identified Greater Sage-Grouse lek locations to the impacts analysis.

- Update revegetation rates and success criteria.

- Clarify transportation routes and frequency.

- Clarify permitting through agencies other than the BLM.

- Add a comparative table for Operator-committed Mitigation Measures and BLM-Proposed Mitigation Measures that might be chosen in order to prevent unnecessary or undue degradation.

- Include all comments received on the Draft EIS along with the BLM's responses.

Upon conclusion of the 30-day public availability period following the date EPA publishes the NOA in the **Federal Register**, BLM will prepare and sign the ROD to announce the BLM's final decision on Cameco's application as described in the Plan of Operations and

any project Conditions of Approval. Availability of the ROD will be announced through local media and the project mailing list, and will be posted on the project Web site.

(Authority: 40 CFR 1506.6, 40 CFR 1506.10)

Donald A. Simpson,
State Director, Wyoming.

BILLING CODE 4310-22-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLUT1110000.L16100000.DS0000]

Notice of Availability of the Utah Greater Sage-Grouse Draft Land Use Plan Amendments and Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended (NEPA), and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) and U.S. Forest Service (USFS) have prepared a Utah Greater Sage-Grouse Draft Land Use Plan (LUP) Amendments and Environmental Impact Statement (EIS) and by this notice is announcing the opening of the comment period.

DATES: To ensure that comments will be considered, the BLM must receive written comments on the Draft LUP Amendments/EIS within 90 days following the date the Environmental Protection Agency publishes notice of the Draft LUP Amendments/EIS in the **Federal Register**. The BLM and USFS will announce future meetings or hearings and any other public participation activities at least 15 days in advance through public notices, media releases, and/or mailings.

ADDRESSES: Interested parties may submit comments related to the Utah Greater Sage-Grouse Draft LUP Amendments/EIS by any of the following methods:

- Email: blm_ut_comments@blm.gov
- Fax: 801-539-4074
- Mail: BLM—Greater Sage-Grouse EIS, 440 West 200 South, Suite 500, Salt Lake City, UT 84101-1345

Copies of the Utah Greater Sage-Grouse Draft LUP Amendments/EIS are available at the BLM Utah State Office at the above address or on the Internet at: http://www.blm.gov/ut/st/en/prog/planning/SG_RMP_rev.html.

FOR FURTHER INFORMATION CONTACT:

Quincy Bahr, Greater Sage-Grouse Project Manager/Environmental Coordinator, telephone 801-539-4122 or Tyler Ashcroft, Environmental Coordinator, telephone 801-539-4068. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to leave a message or question for the above individual. The FIRS is available 24 hours a day, 7 days a week. Replies are provided during normal business hours.

SUPPLEMENTARY INFORMATION: The BLM prepared the Utah Greater Sage-Grouse Draft LUP Amendments/EIS to address a range of alternatives focused on specific conservation measures across the Utah range of the Greater Sage-Grouse. This Draft LUP Amendments/EIS is one of 15 separate planning efforts that are being undertaken as part of the BLM and USFS National Greater Sage-Grouse Planning Strategy. Since December 2011, the BLM has invited 56 local, State, Federal, and tribal governments to participate as cooperating agencies (CA) in the Utah Greater Sage-Grouse Draft LUP Amendments/EIS. Twenty-six of the governments have participated as CAs including the USFS, U.S. Fish and Wildlife Service (USFWS), National Resource Conservation Service, State of Utah, and the State of Wyoming.

The Draft LUP Amendments/EIS proposes to amend the LUPs for the Vernal, Price, Richfield, Kanab, Grand Staircase-Escalante National Monument, Cedar/Beaver/Garfield/Antimony, Pinyon, Warm Springs, House Range, Pony Express, Box Elder, Randolph, Park City, and Salt Lake District Isolated Tracts resource or planning areas. The Draft LUP Amendments/EIS will also be used to amend the LUPs for the Dixie, Fishlake, Uinta-Wasatch-Cache, Ashley, and Manti-La Sal National Forests. The current management decisions for resources are described in the following LUPs:

- Vernal Resource Management Plan (RMP) (2008)
- Price RMP (2008)
- Richfield RMP (2008)
- Kanab RMP (2008)
- Grand Staircase-Escalante National Monument Management Plan (2000)
- Cedar/Beaver/Garfield/Antimony RMP (1986)
- Pinyon Management Framework Plan (MFP) (1978)
- Warm Springs RMP (1987)
- House Range RMP (1987)
- Pony Express RMP (1990)
- Box Elder RMP (1986)

- Randolph MFP (1980)
- Park City MFP (1975)
- Salt Lake District Isolated Tracts Planning Analysis (1985)
- Dixie National Forest Land and Resource Management Plan (LRMP) (1986)
- Fishlake National Forest LRMP (1986)
- Uinta National Forest Revised Forest Plan (2003)
- Wasatch-Cache National Forest Revised Forest Plan (2003)
- Ashley National Forest LRMP (1986)
- Manti-La Sal National Forest LRMP (1986)

The planning area includes approximately 48 million acres of BLM, National Park Service, USFS, Bureau of Reclamation, State, local, and private lands located in Utah. It consists of all lands in the State of Utah, minus Washington and San Juan counties and the portions of the Sawtooth National Forest located in Box Elder County. The planning area also includes portions of the Ashley and Uinta-Wasatch-Cache National Forests that extend into Wyoming. Within the planning area, the BLM and USFS administer approximately 3.3 million surface acres. The BLM also administers approximately 4 million acres of Federal subsurface mineral estate underlying occupied Greater Sage-Grouse habitat. Surface management decisions made as a result of this Draft LUP Amendment/EIS will apply only to the BLM-administered and National Forest System lands in the planning area. Through this land use planning process, the BLM and USFS will identify Greater Sage-Grouse preliminary priority management areas (PPMA) and preliminary general management areas (PGMA).

PPMAs are BLM-administered public lands or National Forest System lands identified as having the highest value to maintaining sustainable Greater Sage-Grouse populations. PGMAs are BLM-administered public lands or National Forest System lands that are not as biologically important as PPMAs. In addition to considering which lands will be managed as PPMAs and PGMAs, each alternative considers a unique set of objectives and management actions.

The formal public scoping process for the Draft LUP Amendments/EIS began on December 9, 2011, with the publication of a Notice of Intent in the **Federal Register** (76 FR 77008), and ended on March 23, 2012. The BLM held eight scoping open houses in January and February 2012. The BLM used comments received during public scoping to help identify planning issues that would direct the formulation of alternatives and frame the scope of
