Notice of Intent To Prepare a Draft Environmental Impact Statement on a Proposed Incidental Take Permit for the Na Pua Makani Project, Kahuku, Hawaii

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent; announcement of public scoping meeting; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), intend to conduct public scoping under the National Environmental Policy Act (NEPA) to gather information to prepare a draft environmental impact statement (DEIS) related to an incidental take permit (ITP) application that Champlin Hawaii Wind Holdings, LLC (Champlin) intends to submit to the Service pursuant to the requirements of section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA). The proposed permit would authorize the incidental take of listed species caused by the construction and operation of Champlin’s proposed Na Pua Makani Project (Project) near Kahuku, Hawaii, for production of wind-generated electrical energy on the island of Oahu. In accordance with ESA requirements for an ITP, Champlin is preparing a habitat conservation plan (HCP) to minimize and mitigate the impacts of take of the covered species likely to be caused by the Project. The DEIS will address the impacts of, and alternatives to, issuance of the ITP and implementation of the HCP to determine if these actions may significantly affect the human environment. This notice initiates the public scoping period for the DEIS during which we invite other agencies and the public to attend a public meeting and submit oral and written comments that provide suggestions and information on the scope of issues and alternatives that should be addressed in the DEIS.

DATES: A public scoping meeting will be held on November 13, 2013, from 5:30 p.m. to 9:00 p.m. at the Kahu Village Association Community Center, 56576 Kamehameha Highway, Kahuku, Hawaii 96731. The public is invited to provide oral and written comments at this meeting related to our preparation of a DEIS for this proposed permit action. To ensure consideration of written comments, please send your written comments on or before December 5, 2013.

ADDRESSES: Comments concerning the issuance of the ITP, the development of the Na Pua Makani HCP and the preparation of the associated DEIS should be submitted as follows:
- Email: NaPuaMakanihcp@fws.gov.
- U.S. Mail: Loyal Mehrhoff, Field Supervisor, U.S. Fish and Wildlife Service, Pacific Islands Fish and Wildlife Office, 300 Ala Moana Boulevard, Room 3–122, Honolulu, Hawaii 96850;
- In-Person Drop-off, Viewing, or Pickup: Written comments will be accepted at the public meeting on November 13, 2013, or can be dropped off during regular business hours at the above address on or before December 5, 2013; or
- Written comments can also be faxed (Fax: (808) 792–9581, Attn.: Loyal Mehrhoff) to the Service on or before December 5, 2013.

FOR FURTHER INFORMATION CONTACT: Mr. Loyal Mehrhoff or Aaron Nadig, U.S. Fish and Wildlife Service (see ADDRESSES above); by telephone (808) 792–9400; or by email at NaPuaMakanihcp@fws.gov. Background
Section 9 of the ESA and the implementing regulations for the ESA in the Code of Federal Regulations (CFR) at 50 CFR part 17 prohibit the “take” of fish or wildlife species listed as endangered or threatened. Take of listed fish or wildlife is defined under the ESA as “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532). The term “harass” is defined in the regulations as “an intentional or negligent act or omission which creates the likelihood of injury to wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering” (50 CFR 17.3). The term “harm” is defined in the regulations as “an act which actually kills or injures wildlife. Such act may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding, and sheltering” (50 CFR 17.3).

Under limited circumstances, we issue permits to authorize incidental take—i.e., take that is incidental to, and not the purpose of, the carrying out of an otherwise lawful activity. Regulations governing ITPs for threatened and endangered species are found at 50 CFR 17.32 and 17.22, respectively. In addition to meeting other criteria, an ITP must not jeopardize the continued existence of federally listed threatened or endangered species. Section 10(a)(1)(B) of the ESA contains provisions for issuing such ITPs to non-Federal entities for the take of endangered and threatened species, provided the permit and related conservation plan meet the following criteria: (1) The taking will be incidental; (2) the applicant will, to the maximum extent practicable, minimize and mitigate the impact of such taking; (3) the applicant ensures that adequate funding for the plan will be provided; (4) the taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild.
