This information is used for surveillance of fatal work injuries and for developing prevention strategies. This ICR has been classified as a revision, because of minor revisions to the collection instrument.

In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0133. The current approval is scheduled to expire on March 31, 2014; however, it should be noted that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on July 12, 2013 (78 FR 49158).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
