SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. Appendix (Pub. L. 92–463). The HSSTAC was established and operates in accordance with the provisions of the FACA. The committee addresses areas of interest and importance to the Under Secretary for Science and Technology, such as new developments in systems engineering, cyber-security, knowledge management and how best to leverage related technologies funded by other federal agencies and by the private sector. It also advises the Under Secretary on policies, management processes, and organizational constructs as needed.

Agenda: Members will meet with the Acting Under Secretary and other executives of the DHS Science and Technology Directorate (DHS S&T) to hear updates, discuss areas of concern, and receive taskings. Agenda items on December 4 include an update on the status of the DHS Science and Technology Directorate (DHS S&T), a brief about the DHS S&T Resilient Systems Division, a discussion about industry engagement with DHS S&T, and a status report from the HSSTAC Task Force on Third Party Pre-Screening, followed by a public comment period, committee deliberations, and DHS taskings to the committee. The agenda on December 5 focuses solely on the interaction between DHS S&T and Customs and Border Protection (CBP). An official from CBP will first give a CBP overview, followed by a discussion among officials from CBP and DHS S&T about CBP’s technology needs, how DHS S&T supports those needs, and how that support can be improved. A public comment period will follow the discussion. The committee will then deliberate, receive its tasking from DHS, and begin to develop written recommendations regarding how DHS S&T can better support CBP.

Mary Hanson,
Executive Director, Homeland Security Science and Technology Advisory Committee.
