

life stages in the Savannah (SC/GA), Ogeechee (GA), Altamaha (GA), Satilla (GA), and Saint Marys (GA/FL) Rivers using gill nets and trammel nets to measure, weigh, photograph, PIT and Floy tag, and tissue sample. Subsets are anesthetized, fin ray sectioned, laparoscoped, and implanted with an internal acoustic tag. Incidental mortality of serious harm to five juvenile and sub-adults or one adult annually is authorized. The Permit Holder is also authorized to sample Atlantic sturgeon early life stages (ELS) in suspected spawning areas using egg mats. The Permit Holder now requests consolidating the existing takes of shortnose sturgeon authorized in a separate Permit No 14394 in the Altamaha River (GA) into the current modification, and subsequently terminating Permit No. 14394. Additionally, the Permit Holder proposes new takes of shortnose sturgeon from the Savannah, Ogeechee, Satilla River (GA), Saint Marys Rivers (GA/FL) and Saint Johns and Nassau Rivers (FL); and new takes of Atlantic sturgeon from the Nassau and Saint Johns Rivers (FL) using identical methods described for Atlantic sturgeon. One additional procedure is requested not permitted in prior permits: the Permit Holder requests sampling blood from subsets of captured Atlantic and shortnose sturgeon from the Altamaha River (GA). Incidental mortality of two juvenile or adult shortnose sturgeon would be authorized annually from all river systems, as well sampling of shortnose sturgeon ELS in suspected spawning areas. The modification would be valid through the expiration date of the original permit on April 5, 2017.

Office of the Secretary

Meeting of the National Commission on the Structure of the Air Force

AGENCY: Director of Administration and Management, DoD.

ACTION: Notice of Advisory Committee Meeting.

SUMMARY: The Department of Defense is publishing this notice to announce that the following Federal advisory committee closed meeting of the National Commission on the Structure of the Air Force ("the Commission") has taken place. Due to difficulties finalizing the meeting agenda for the scheduled meeting of the National Commission on the Structure of the Air

Force for November 5, 2013, this meeting notice is publishing in the **Federal Register** after the date of the meeting.

DATES: Dates of Closed Meeting, including Hearing and Commission Discussion: Tuesday, November 5, 2013, from 1:00 p.m. to 5:00 p.m.

ADDRESSES: 2521 South Clark Street, Suite 525, Crystal City, VA 22202 and a secure video teleconferencing line.

FOR FURTHER INFORMATION CONTACT: Mrs. Marcia Moore, Designated Federal Officer, National Commission on the Structure of the Air Force, 1950 Defense Pentagon, Room 3A874, Washington, DC 20301-1950. Email: marcia.l.moore12.civ@mail.mil. Desk (703) 545-9113. Facsimile (703) 692-5625.

SUPPLEMENTARY INFORMATION: Purpose of Meeting: This meeting was held under the provisions of the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102-3.150. The Commissioners considered information and data from a variety of sources that will be presented and aggregated by employing several data, analytic and decision support tools, each of which contain classified information.

Agenda: The agenda items were:

- The role of airpower in the post-Afghanistan national security situations likely to be encountered by the Air Force capabilities and Airmen and the implications for the structure of the Air Force. This discussion will be organized into three categories. The "Away Game," will involve emerging demands on Air Force capabilities such as: Intelligence, Surveillance and reconnaissance, Remotely Piloted Aircraft, Space, Cyber, Special Operations, and Building Partnership Capacity. Commissioners will also explore the implications of rising demands and expectations for the "Home Game" in missions such as Homeland Defense, Homeland Security, and Defense Support to Civil Agencies. This will include implications for the structure of the Air Force from the growing threat of the "Away Game" involving simultaneous attacks on the Homeland. The third area of discussion will be on the continuing growth of demand on traditional Air Force core functions including: Air Superiority, Air Mobility, Global Precision Attack, Nuclear Deterrence Operations, Command and Control, Personnel Recovery, Agile Combat

Support, Training and Education, and other specific mission sets such as security forces, civil engineering and science and technology.

- Projections and assumptions about future resource levels that will be available to organize, train and equip the Air Force. This will include assumptions about how the Budget Control Act and Sequestration legislation will affect Total Obligational Authority and associated planning, programming and budgeting flexibility. Commissioners will also consider the impact of strategic choices on Air Force capabilities and force structure options derived from the selection of national priorities among modernization, technology, recapitalization, readiness, capacity and force structure. In this discussion Commissioners will consider the various approaches to how to calculate and apply cost methods and data to questions of force structure.
- The root causes of legislative and bureaucratic development of the force structure issues that led to the creation of the Commission in 2013. They will consider how these issues are rooted in the American militia heritage and the history of the Air Force since 1947. This discussion will extend to accounting for the socio-cultural dimensions of force structure issues ranging from the fundamental relationship of the American people to their military and to sub-cultures within the Air Force.
- How to institutionalize the shift in the fundamental role of the reserve components from a strategic reserve to an operational reserve with associated expectations. Commissioners will also consider the force mix options they are prepared to assess in terms of relative weight of force structure in each of the components. Commissioners will consider whether to recommend that the Department of Defense invert the force sizing planning paradigm from sizing to meet the expected wartime surge to an approach that begins with the Steady State Requirement then resource the components to provide the nation with a meaningful surge capacity for the strategy. They will also address considerations for measuring and assessing Active, Reserve and Guard Effectiveness—both cost and mission effectiveness.
- Alternative approaches to how the nation should direct, control and guide the active, reserve and National Guard Air Forces, including: Whether, and if so how, to simplify Title 10, Title 32 and other governing legislative authorities;
