ACTION: Notice and opportunity for public comment.

Pursuant to Section 251 of the Trade Act 1974, as amended (19 U.S.C. 2341 et seq.), the Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of these firms contributed importantly to the total or partial separation of the firm’s workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Notice of Extension of the Deadline for Determining the Adequacy of the Antidumping Duty and Countervailing Duty Petitions: 1,1,1,2-Tetrafluoroethane From the People’s Republic of China

Extension of Initiation of Investigations The Petitions

On October 22, 2013, the Department of Commerce (“Department”) received an antidumping duty and countervailing duty petition filed by Mexichem Fluor, Inc. (“Petitioner”) on behalf of the domestic industry producing 1,1,1,2-Tetrafluoroethane.¹

Determination of Industry Support for the Petitions

Sections 702(b)(1) and 732(b)(1) of the Tariff Act of 1930, as amended (“Act”), require that a petition be filed by or on behalf of the domestic industry. Sections 702(c)(4)(A) and 732(c)(4)(A) of the Act provide that the Department’s industry support determination be based on whether a minimum

percentage of the relevant industry supports the petition. A petition meets this requirement if the domestic producers or workers who support the petition account for: (i) At least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, sections 702(c)(4)(D) and 732(c)(4)(D) of the Act provide that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, the Department shall: (i) Poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A), or (ii) if there is a large number of producers, determine industry support using a statistically valid sampling method to poll the industry.

Extension of Time

Sections 702(c)(1)(A)(ii) and 732(c)(1)(A)(ii) of the Act provide that within 20 days of the filing of an antidumping duty and countervailing duty petition, the Department will determine, *inter alia*, whether the petition has been filed by or on behalf of the U.S. industry producing the domestic like product. Sections 702(c)(1)(B) and 732(c)(1)(B) of the Act provide that the deadline for the initiation determination, in exceptional circumstances, may be extended by 20 days in any case in which the Department must “poll or otherwise determine support for the petition by the industry.” Because it is not clear from the Petitions whether the industry support criteria have been met, the Department has determined it should extend the time for initiating these investigations in order to further examine the issue of industry support.

The Department will need additional time to gather and analyze additional information regarding industry support. Therefore, it is necessary to extend the deadline determining the adequacy of the Petitions for a period not to exceed 40 days from the filing of the Petition. Because the extended initiation determinations date of December 1, 2013, falls on a Sunday, a non-business day, the Department’s initiation determinations will now be due no later than December 2, 2013, the next business day.²

² See Notice of Clarification: Application of “Next Business Day” Rule for Administrative

International Trade Commission Notification

The Department will contact the International Trade Commission (“ITC”) and will make this extension notice available to the ITC.

Dated: November 1, 2013.

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Aluminum Extrusions From the People’s Republic of China: Preliminary Results of Changed Circumstances Reviews, and Intent To Revoke Antidumping and Countervailing Duty Orders in Part

AGENCY: Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective:* November 7, 2013.

SUMMARY: On June 20, 2013, the Department of Commerce (Department) received a request for changed circumstances reviews and a request to revoke, in part, the antidumping (AD) and countervailing duty (CVD) orders on aluminum extrusions from the People’s Republic of China (PRC),¹ with respect to certain rectangular wire. We published the notice of initiation of changed circumstances reviews on August 20, 2013 and invited comments from interested parties. We received no comments. We preliminarily conclude that changed circumstances warrant the revocation of the *Orders*, in part. Specifically, we preliminarily determine that producers accounting for substantially all of the production of the domestic like product to which these *Orders* pertain lack interest in the relief provided by the AD and CVD *Orders* based on a statement of no interest in the continuation of the *Orders* with respect to certain rectangular wire described below. Accordingly, we are notifying the public of our intent to revoke, in part, these *Orders* as to imports of certain rectangular wire

described below. The Department invites interested parties to comment on these preliminary results.

Background

On May 26, 2011, the Department published the AD and CVD *Orders* in the **Federal Register**. On June 20, 2013, the Department received a request on behalf of 3M Company (3M) for changed circumstances reviews to revoke, in part, the *Orders* with respect to certain rectangular wire imported by 3M. In its request, 3M attached a letter submitted on behalf of the Aluminum Extrusion Fair Trade Committee (AEFTC), the petitioners in the less-than-fair-value and CVD investigations, and the Aluminum Extrusion Council (AEC), in which representatives of the AEFTC and AEC stated that they no longer have interest in maintaining the *Orders* with respect to certain rectangular wire-identified in 3M’s request for the changed circumstances reviews.

On July 2, 2013, 3M filed a letter containing a clarification from the AEFTC and AEC in which they stated that they no longer have interest in maintaining the *Orders* with respect to certain rectangular wire, regardless of whether 3M or another party imports it. On August 20, 2013, we published a notice of initiation of these changed circumstances reviews.² Because the statement provided by the AEC and offered in support of 3M’s request for changed circumstances reviews did not indicate whether the AEC accounts for substantially all of domestic aluminum extrusion production, in the *Initiation Notice*, we invited interested parties to comment on the Department’s initiation. We received no comments from interested parties.

Scope of the Orders

The merchandise covered by these *Orders* is aluminum extrusions which are shapes and forms, produced by an extrusion process, made from aluminum alloys having metallic elements corresponding to the alloy series designations published by The Aluminum Association commencing with the numbers 1, 3, and 6 (or
