All comments are to be filed electronically using Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS) available to registered users at <http://iaaccess.trade.gov> and in the Central Records Unit, Room 7046 of the main Department of Commerce building, and must also be served on interested parties.<sup>11</sup> An electronically filed document must be received successfully in its entirety by IA ACCESS by 5:00 p.m. Eastern Standard Time on the day it is due.<sup>12</sup>

The Department will issue the final results of these changed circumstances reviews, which will include its analysis of any written comments, no later than 270 days after the date on which these reviews were initiated.

If, in the final results, the Department continues to determine that changed circumstances warrant the revocation of the *Orders*, in part, we will instruct U.S. Customs and Border Protection (CBP) to liquidate without regard to ADs and CVDs, and to refund any estimated ADs and CVDs collected, on all unliquidated entries of the product in question that are not covered by the final results of an administrative review or automatic liquidation. Specifically, because there has been no completed administrative review of the *Orders*, we will instruct CBP to liquidate, without regard to ADs and CVDs, and refund estimated ADs and CVDs collected, on unliquidated entries of aluminum extrusions meeting the specifications of the product in question, entered or withdrawn from warehouse, for consumption, on or after

notice of preliminary results, pursuant to 19 CFR 351.221(b)(4), and notice of intent to revoke order in part).

#### Low Enriched Uranium From France: Final Results of Changed Circumstances Review

**AGENCY:** Enforcement and Compliance, formerly Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) has extended the deadline, until November 1, 2015, for the re-exportation of one specified entry of low enriched uranium (LEU) that entered under a narrow provision excluding it from the scope of the antidumping (AD) order.<sup>1</sup> The Department also determined that this will be the final extension of the re-exportation deadline.

**DATES:** *Effective:* November 7, 2013.

**FOR FURTHER INFORMATION CONTACT:** Andrew Huston or Mark Hoadley, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4261 or (202) 482-3148, respectively.

#### SUPPLEMENTARY INFORMATION:

##### Background

Since the publication of the *Preliminary Results*, the following events have taken place. Eurodif S.A. and AREVA NP Inc. (collectively,

<sup>1</sup> See *Low Enriched Uranium from France: Initiation of Expedited Changed Circumstances Review, and Preliminary Results of Changed Circumstances Review*, 78 FR 52905 (August 27, 2013) (*Preliminary Results*).

AREVA) submitted comments on September 11, 2013. No other party submitted comments and no rebuttal comments were filed.

#### Scope of the Order

The product covered by the order is all low-enriched uranium. Low-enriched uranium is enriched uranium hexafluoride (UF<sub>6</sub>) with a U<sup>235</sup> product assay of less than 20 percent that has not been converted into another chemical form, such as UO<sub>2</sub>, or fabricated into nuclear fuel assemblies, regardless of the means by which the LEU is produced (including low-enriched uranium produced through the down-blending of highly enriched uranium).

Certain merchandise is outside the scope of the order. Specifically, the order does not cover enriched uranium hexafluoride with a U<sup>235</sup> assay of 20 percent or greater, also known as highly-enriched uranium. In addition, fabricated low-enriched uranium is not covered by the scope of the order. For purposes of the order, fabricated uranium is defined as enriched uranium dioxide (UO<sub>2</sub>), whether or not contained in nuclear fuel rods or assemblies. Natural uranium concentrates (U<sub>3</sub>O<sub>8</sub>) with a U<sup>235</sup> concentration of no greater than 0.711 percent and natural uranium concentrates converted into uranium hexafluoride with a U<sup>235</sup> concentration of no greater than 0.711 percent are not covered by the scope of the order.

Also excluded from the order is low-enriched uranium owned by a foreign utility end-user and imported into the United States by or for such end-user solely for purposes of conversion by a U.S. fabricator into uranium dioxide (UO<sub>2</sub>) and/or fabrication into fuel assemblies so long as the uranium dioxide and/or fuel assemblies deemed to incorporate such imported low-enriched uranium (i) remain in the possession and control of the U.S. fabricator, the foreign end-user, or their designed transporter(s) while in U.S. customs territory, and (ii) are re-exported within eighteen (18) months of entry of the low-enriched uranium for consumption by the end-user in a nuclear reactor outside the United States. Such entries must be accompanied by the certifications of the importer and end-user.

The merchandise subject to this order is classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2844.20.0020. Subject merchandise may also enter under 2844.20.0030, 2844.20.0050, and 2844.40.00. Although the HTSUS subheadings are provided for convenience and customs purposes, the

written description of the merchandise subject to this proceeding is dispositive.

### Final Results of Expedited Changed Circumstances Review

The Department continues to find that changed circumstances exist (*i.e.*, the Japanese end-user remains unable to take delivery due to ongoing improvements and countermeasures following the March 11, 2011 earthquake and tsunami in Japan), and that it is appropriate to extend the deadline for re-exportation of this sole entry of low-enriched uranium. The Department determines that the deadline for re-exportation of this sole entry is November 1, 2015, and that this will be the final extension. The Department further determines that, if the Japanese end-user is unable to take delivery by the November 1, 2015 deadline, AREVA, the U.S. importer as well as the French exporter, will be required to re-export this sole entry to France or pay antidumping duties on the entry at the applicable rate. AREVA and the end-user will be required to submit amended certifications to U.S. Customs and Border Protection (CBP). The Department will release amended certifications to parties for comment before AREVA and the end-user are required to submit to such certifications to CBP.

### Instructions to CBP

The Department will inform CBP that the deadline for re-exportation of the single entry at issue is extended to November 1, 2015. The Department will instruct CBP to collect amended certifications from AREVA and its end-user within 30 days of publication of these final results of changed circumstances review.

### Notification Regarding Administrative Protective Orders

This notice is the only reminder to parties subject to the administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under the APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these preliminary results and notice in accordance with sections 751(b)(1) and 777(i)(1) and (2) of the Act and 19 CFR 351.216.

The binational panel affirmed the Mexican Ministry of Economy's final determination regarding this matter. Copies of the panel's decision in English and Spanish are available from the U.S. Section of the NAFTA Secretariat.

**SUPPLEMENTARY INFORMATION:** Chapter 19 of the North American Free-Trade Agreement ("Agreement") establishes a mechanism to replace domestic judicial review of final determinations in antidumping and countervailing duty cases involving imports from a NAFTA country with review by independent binational panels. When a Request for Panel Review is filed, a panel is established to act in place of national courts to review expeditiously the final determination to determine whether it conforms with the antidumping or countervailing duty law of the country that made the determination.

Under Article 1904 of the Agreement, which came into force on January 1, 1994, the Government of the United States, the Government of Canada and the Government of Mexico established Rules of Procedure for Article 1904 Binational Panel Reviews ("Rules"). ### SUPPLEMENTARY INFORMATION:

#### I. Abstract

This request is for a new information collection.

The objective of the survey is to collect information on seafood plant characteristics, plant ownership, operating costs, capital costs, labor and revenue related to the processing of marine fish species. As specified in the Magnuson-Stevenson Fishery Conservation and Management Act of 1996 (and reauthorized in 2007), NMFS is required to enumerate the economic impacts of the policies it implements on the harvesting and processing sectors of the commercial fishing industry, as well as to coastal communities. The information collected in this survey will be used to provide information on
