Federal Aviation Administration

14 CFR Parts 71

[Docket FAA No. FAA-2013-0529; Airspace Docket No. 13-ANM-17]

Establishment of Class E Airspace; Glasgow, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published in the Federal Register of September 30, 2013, that establishes Class E airspace at the Glasgow VHF Omni-Directional Radio Range/Distance Measuring Equipment (VOR/DME) navigation aid, Glasgow, MT. A favorable comment from the National Business Aviation Association (NBAA) was received in the public Docket but was not referenced in the Final Rule.

DATES: Effective date: 0901 UTC, December 12, 2013. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:

History

The FAA published a final rule in the **Federal Register** establishing Class E airspace at the Glasgow VOR/DME navigation aid, Glasgow, MT (78 FR 59807, September 30, 2013). The FAA

received a comment in support of the rule from the NBAA for inclusion in FAA Docket No. FAA-2013-0529 prior to the closing of the comment period. However, the preamble incorrectly references that there were no comments to the proposal. This action corrects that statement.

Correction to Final Rule

Accordingly, pursuant to the authority delegated to me, the description under the History heading, as published in the **Federal Register** of September 30, 2013 (78 FR 59807), Airspace Docket No. 13-ANM-17, FR Doc. 2013-23669, is corrected as follows: On page 59808, column 1, line 4, remove the words "No comments were received.", and add in their place "One comment was received from the National Business Aviation Association fully supporting the establishment of Class E en route airspace.".

Issued in Seattle, Washington, on October 30, 2013.

[Docket No. FAA-2013-0576; Airspace Docket No. 13-ANM-11]

Modification of Class E Airspace; Prineville, OR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Prineville, OR, to accommodate Area Navigation (RNAV) Global Positioning System (GPS) standard instrument approach procedures at Prineville Airport. This improves the safety and management of Instrument Flight Rules (IFR) operations at the airport. This action also adjusts the geographic coordinates of the airport.

DATES: Effective date, 0901 UTC, February 6, 2014. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation

Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW, Renton, WA 98057; telephone (425) 203-4537.

SUPPLEMENTARY INFORMATION:

History

On August 26, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to modify controlled airspace at Prineville, OR (78 FR 52717). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Except for editorial changes this rule is the same as published in the NPRM.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E airspace extending upward from 700 feet above the surface, expanding the segments west and southeast of Prineville Airport, Prineville, OR, to accommodate RNAV (GPS) standard instrument approach procedures at the airport. This action is necessary for the safety and management of IFR operations. The geographic coordinates of the airport are adjusted in accordance with the FAA's aeronautical database.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 discusses the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the

scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies controlled airspace at Prineville Airport, Prineville, OR.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, "Environmental Impacts: Policies and Procedures," paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

BROADCASTING BOARD OF GOVERNORS

22 CFR Part 502

Domestic Requests for Broadcasting Board of Governors Program Materials

AGENCY: Broadcasting Board of Governors.

ACTION: Final rule.

SUMMARY: The Broadcasting Board of Governors ("BBG") finalizes an interim final rule, published in the **Federal Register** on July 2, 2013. The interim final rule established procedures for the BBG to respond to domestic requests from members of the public, organizations, and media, for program materials disseminated by BBG abroad. The BBG received and reviewed one public comment regarding the interim final rule, which is supportive of BBG broadcasting. BBG adopts the interim rule as final, with minor, technical amendments.

DATES: Effective November 8, 2013.

FOR FURTHER INFORMATION CONTACT: April Cabral, Senior Policy Advisor, International Broadcasting Bureau, Broadcasting Board of Governors, 330 Independence Avenue SW., Washington, DC 20237. Telephone number: (202) 203-4515.

SUPPLEMENTARY INFORMATION: For a more thorough explanation of the background for this rule, see the **SUPPLEMENTARY INFORMATION** section of 78 FR 39584.

Background

Section 501 of the U.S. Information and Educational Exchange Act, as amended, allows the BBG to respond to domestic requests for the BBG program materials, and requires the BBG to issue regulations that establish procedures for responding to such requests. The BBG published an interim final rule in the
