FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 et seq.) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than December 6, 2013.

Office of the Secretary

Findings of Research Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has taken final action in the following case:

Hao Wang, M.D., Ph.D., Western University—Canada (formerly University of Western Ontario): Based on the report of an investigation conducted by Western University—Canada (WU) and ORI's subsequent oversight analysis, ORI found that Dr. Hao Wang, former Associate Professor of Surgery and Pathology, Schulich School of Medicine and Dentistry, WU, engaged in research misconduct in research supported by National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health (NIH), subaward 0016244 from Prime Award U01 AI074676 to the University of Pittsburgh.

ORI found that Respondent engaged in research misconduct by falsifying data that were included in:

- An abstract and poster presentation for the 2011 American Transplant Congress—Abstract [13373];

Specifically, ORI found that the Respondent falsified the status of two animals as successfully treated renal allograft recipients in a 2011 American Transplant Congress abstract and meeting presentation and in false representations to the project principal investigators and colleagues.

Respondent falsely claimed long term survival, normal serum creatinine concentrations, and lack of adverse effects in two Cynomolgus monkeys treated with chimeric antibodies following bilateral nephrectomies and receipt of renal allografts, when in fact the transplant surgery had failed and the animals’ survival was due to a native kidney that was left in place in each animal. Respondent also falsified or failed to correct known falsifications (identifying the two monkeys as transplant recipients) in numerous clinical records, including anesthesia records, progress, notes, treatment records, and clinical laboratory reports.

It is expressly agreed that while Respondent asserts that there are extenuating factors for his actions, Respondent agrees to enter into the Agreement because contesting the findings would cause him undue financial hardship and stress, and Respondent wishes to seek finality. Respondent also claims that based on the data obtained from the same experimental group, the removal of these two monkeys from the data would not alter the scientific conclusion.

Dr. Wang has entered into a Voluntary Settlement Agreement and has voluntarily agreed for a period of three (3) years, beginning on October 22, 2013:

1. To have his research supervised; Respondent agreed that prior to the submission of an application for U.S. Public Health Service (PHS) support for a research project on which the Respondent’s participation is proposed and prior to Respondent’s participation in any capacity on PHS-supported research, Respondent shall ensure that a plan for supervision of his duties is submitted to ORI for approval; the supervision plan must be designed to ensure the scientific integrity of Respondent’s research contribution; Respondent agreed that he shall not participate in any PHS-supported research until such a supervision plan is submitted to and approved by ORI; Respondent agreed for a period of three (3) years, beginning on October 22, 2013:

2. To have his research supervised;
