

collection of information required by this rulemaking assist shippers in their business dealings with interstate HHG brokers. The information collected is used by prospective shippers to make informed decisions about contracts, services ordered, executed, and settled. The HHG broker is often the primary contact for individual shippers and in the best position to educate shippers and prepare them for a successful move. The information collected makes that possible. To combat deceptive business practices this helps enforcement personnel to better protect consumers by verifying that shippers are receiving information they are entitled to by regulation.

HHG brokers are required to provide individual shippers the "Your Rights and Responsibilities When You Move" booklet and the "Ready to Move" brochure. They have the option of providing paper copies or presenting the information through a link on their Internet Web site. The broker is required to document with signed receipts that the individual shipper was provided those materials. HHG brokers are also required to provide the list of HHG motor carriers for which it would arrange transportation to move a potential individual shipper's HHG, and that broker's identification information:

1. Assigned USDOT number; and
2. Address.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 25 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 25 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Tracy A. Ammons (NC)
David N. Cleveland (ME)
Randy B. Combs (KY)
Robert L. Cross, Jr. (MO)
James D. Davis (OH)
Edward J. Genovese (IN)
Dewayne E. Harms (IL)
David F. LeClerc (MN)
Paul G. Mathes (WA)
Kevin L. Moody (OH)
Terry W. Moore (LA)
Charles W. Mullenix (GA)
Richard W. O'Neill (WA)
Robert M. Pickett II (MI)
John N. Poland (IL)
Eligio M. Ramirez (TX)
Garry L. Rogers (CO)
Donald J. Snider (IN)
Wilfred E. Sweatt (NH)
Jesse L. Townsend (LA)
Humberto A. Valles (TX)
James A. Welch (NH)
Gary M. Wolff (IL)
John C. Young (VA)
Michael E. Yount (ID)

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 25 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 40404; 64 FR 68195; 66 FR 30502; 68 FR 52811; 70 FR 48797; 71 FR 63379; 72 FR 39879; 72 FR 8417; 72 FR 46261; 76 FR 40445). Each of these 25 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by December 13, 2013.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 25 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was made on the merits of each case and made only after careful consideration of the comments received to its notices of applications. The notices of applications stated in

detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the 2-year period. The 39 individuals listed in this notice have recently requested such an exemption from the diabetes prohibition in 49 CFR 391.41(b)(3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the

exemption will achieve the required level of safety mandated by statute.
