Proposed Information Collection; Federal Fish and Wildlife Permit Applications and Reports—Migratory Birds and Eagles

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on February 28, 2014. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by January 13, 2014.

ADDRESSES: Send your comments on the IC to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 2042-PDM, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or hope_grey@fws.gov (email). Please include "1018-0022" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey at hope_grey@fws.gov (email) or 703-358-2482 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract

Our Regional Migratory Bird Permit Offices use information that we collect on permit applications to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws and international treaties, including:

- (1) Migratory Bird Treaty Act (16 U.S.C. 703 et seq.).
- (2) Lacey Act (16 U.S.C. 3371 et seq.).
- (3) Bald and Golden Eagle Protection Act (16 U.S.C. 668).

Service regulations implementing these statutes and treaties are in chapter I, subchapter B of title 50 of the Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that, when met, allow us to issue permits to authorize activities that are otherwise prohibited.

All Service permit applications are in the 3-200 series of forms, each tailored to a specific activity based on the requirements for specific types of permits. We collect standard identifier information for all permits. The information that we collect on applications and reports is the minimum necessary for us to determine if the applicant meets/continues to meet issuance requirements for the particular activity.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP process for the Refuge. We started this process through a notice in the **Federal Register** (76 FR 61378; October 4, 2011). We released the draft CCP/EA to the public, announcing it and requesting comments in a notice of availability in the **Federal Register** (77 FR 71011; November 28, 2012).

We announce the availability of the FONSI for the CCP/EA in accordance with National Environmental Policy Act (40 CFR 1506.6(b)) requirements. We completed a thorough analysis of impacts on the human environment in the draft CCP/EA.

The CCP will guide us in managing and administering the Refuge for the next 15 years. Alternative B in the draft CCP/EA was selected for implementation. To address public comments received on the draft CCP/EA, changes and clarifications were made to the final CCP where appropriate. A summary of the public comments we received is included in the final CCP with our responses.

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify compatible wildlife-dependent recreational opportunities available to the public,

including hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update each CCP at least every 15 years in accordance with the Refuge Administration Act.

Selected Alternative

Under the selected alternative, our emphasis on protecting and maintaining forested, near shore, freshwater wetland, and stream-riparian habitats will continue, with an increased level of active habitat management, monitoring, and enhancement.

The Refuge's public use activities will include: Saltwater fishing, shell-fishing (clams and crabs), wildlife observation and photography, hiking, no-wake boating, jogging, horseback riding (with stipulations), beach use, and environmental education and interpretation. The areas and timing of public access will remain the same with some exceptions, including new boat-landing hours and jogging stipulations. Jogging will be allowed on the trail adjacent to the Refuge's parking lots and along the west beach from the end of the upland forested trail to the Refuge's western boundary. Horseback riding would be allowed with stipulations, on the beach west of where the main trail meets Dungeness Spit, if a safe and legal alternate access route can be obtained. If an alternate access route is obtained from the east, horseback riding on a Refuge-owned road to the beach would be allowed. Staff and volunteer time devoted to visitors and community outreach will increase. New orientation materials, regulatory signage, and volunteer opportunities will be developed.

The effects of climate change on Refuge resources will be considered during management activities, and we will reduce the Refuge's carbon footprint. Invasive species will be monitored and controlled. Other management activities include fire management, maintenance of existing structures, coordination with State, Tribal, and other partners; cultural resources protection, and land protection within the approved Refuge boundary. All actions are subject to funding availability.

Public Availability of Documents

Printed copies will be available at the Refuge and at the following libraries.
