

III. Regulatory Flexibility Act

NASA certifies that this proposed rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the proposed rule does not impose any additional requirements on small entities and, more importantly, the proposed rule serves to deregulate internal agency operating procedures which will eliminate unnecessary regulation.

IV. Paperwork Reduction Act

The Paper Reduction Act (Pub. L. 104-13) is not applicable because the removal of the delegation of administration procedures does not require the submission of any information by recipients that requires the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Approval and Promulgation of Air Quality Implementation Plans; Virginia; Removal of the Regulation for the National Low Emission Vehicle Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the

Commonwealth of Virginia that serves to remove from the SIP Virginia's repealed regulation for the National Low Emission Vehicle (NLEV) program. Virginia repealed its regulation in December 2011, because the Virginia NLEV program regulation had by then expired and was superseded by more stringent federal Tier 2 passenger car and light-duty truck standards, which were promulgated by EPA on February 10, 2000. More stringent federal Tier 2 vehicle emission standards were implemented, on a phased-in basis, between model years 2004 and 2006, taking the place of the NLEV program. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule.
