SUPPLEMENTARY INFORMATION:

Proposed Information Collection Activities

Under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501-3520, federal agencies must get OMB approval for each collection of information they conduct, sponsor, or require.

“Collection of information” means agency requests or requirements to submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). As required by section 3506(c)(2)(A) of the PRA, the FTC is providing this opportunity for public comment before requesting that OMB extend the existing PRA clearance for the information collection requirements associated with the Commission’s Rule Governing Pre-Sale Availability of Written Warranty Terms, (the Pre-Sale Availability Rule), 16 CFR 702 (OMB Control Number 3084-0112).

The FTC invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond. All comments must be received on or before January 13, 2014.

The Pre-Sale Availability Rule is one of three rules¹ that the FTC issued as required by the Magnuson Moss Warranty Act, 15 U.S.C. 2301 et seq. (Warranty Act or Act).² The Pre-Sale Availability Rule requires sellers and warrantors to make the text of any written warranty on a consumer product costing more than \$15 available to the consumer before sale. Among other things, the Rule requires sellers to make the text of the warranty readily available either by (1) displaying it in close proximity to the product or (2) furnishing it on request and posting signs in prominent locations advising consumers that the warranty is available. The Rule requires warrantors to provide materials to enable sellers to

¹ The other two rules relate to the information that must appear in a written warranty on a consumer product costing more than \$15 if a warranty is offered and minimum standards for informal dispute settlement mechanisms that are incorporated into a written warranty.

² 40 FR 60168 (Dec. 31, 1975).

comply with the Rule’s requirements and also sets out the methods by which warranty information can be made available before the sale if the product is sold through catalogs, mail order, or door to door sales.

Pre-Sale Availability Rule Burden Statement:

Total annual hours burden:
2,446,610.

In its 2010 submission to OMB, FTC staff estimated that the information collection burden of making the disclosures required by the Pre-Sale Availability Rule was approximately 2,490,000 hours per year. Although there has been no change in the Rule’s information collection requirements since 2010, staff has adjusted its previous estimate of the number of manufacturers subject to the Rule based on recent Census data. From that, staff now estimates that there are approximately 581 large manufacturers and 13,935 small manufacturers subject to the Rule. In addition, recent Census data suggests that there are an estimated 6,892 large retailers and 452,553 small retailers impacted by the Rule.

In its 2010 submission to OMB, staff took note that some online retailers had begun to make warranty information directly available on their Web sites, thereby reducing their paperwork burden under the Rule. As e-commerce continues to grow, it is likely that even more retailers are posting warranty information online than they were in 2010. Nevertheless, because the staff assumes that only a small percentage of retailers would be significantly less burdened by posting warranty information online—namely, retailers with a large Internet presence or whose inventory is mainly composed of warranted products³—the staff has retained its previous estimates of the hour burden for retailers. Therefore, staff continues to estimate that large retailers spend an average of 20.8 hours per year and small retailers spend an average 4.8 hours per year to comply with the Rule. Accordingly, the total annual burden for retailers is approximately 2,315,608 hours ((6,892 large retailers × 20.8 burden hours) + (452,553 small retailers × 4.8 burden hours)). Staff also estimates that more manufacturers are beginning to provide retailers with warranty information in electronic form in fulfilling their obligations under the Rule. Therefore, staff has adjusted the hour burden for manufacturers as it did in its previous

³ In addition, many online retailers also operate “brick-and-mortar” operations and still provide paper copies of warranties for review by customers who do not do business online.
