(3) Development of a resort/hotel and gaming facility within the project site in Taunton, Massachusetts, and development of Tribal Government facilities within the site area located in Mashpee, Massachusetts.

At full build-out, the Tribe's proposed resort/hotel and gaming facility would have approximately 132,000 square feet of gaming floor. Access to the Taunton site would be via O'Connell Way, off of Stevens Street, near the intersection of Stevens Street and Route 140 in Taunton, Massachusetts.

The following alternatives are considered in the DEIS:

(A) The development as proposed by the Tribe;

(B) Reduced Intensity I Alternative;

(C) Reduced Intensity II Alternative;

and

(D) No Action Alternative.

Environmental issues addressed in the DEIS include: Transportation; wetlands and other waters of the U.S.; storm water; geology and soils; rare species and wildlife habitat; hazardous materials; water supply; wastewater; utilities; solid waste; air quality; greenhouse gas; cultural resources; noise, visual impacts; socio-economics; environmental justice; cumulative effects and indirect and growth-inducing effects.

SUPPLEMENTARY INFORMATION: First Solar Development, Inc. (First Solar) has requested a right-of-way (ROW) authorization to construct, operate, maintain and decommission the 300-megawatt (MW) photovoltaic SSFP from the BLM and a well permit from the County of San Bernardino. The BLM is responding to the ROW application as required by FLPMA. The proposed project located on BLM-administered lands would include access roads, photovoltaic arrays, electrical substation, meteorological station, monitoring and maintenance facility, water wells, and a 2.3 mile generation tie-line on up to 2,143 acres. The project location is in San Bernardino County approximately 2 miles south of the Nevada-California border and 0.5 miles west of Interstate 15.

The BLM's purpose and need for the SSFP is to respond to First Solar's application for a ROW grant to construct, operate, maintain, and decommission a photovoltaic solar energy facility on public lands in compliance with FLPMA, BLM ROW regulations, and other applicable Federal laws. The BLM will decide whether to grant, grant with modification, or deny a ROW to First Solar for the proposed SSFP. The CDCA Plan (1980, as amended), while recognizing the potential compatibility of solar energy generation facilities with other uses on public lands, requires that

all sites proposed for power generation or transmission not already identified in the plan be considered through the plan amendment process. The BLM is proposing to amend the CDCA Plan by designating the project area as either suitable or unsuitable for solar energy projects. In addition to the proposed action, which is analyzed as Alternative 1: 300 MWs on 2,143 acres, the BLM is analyzing three other project alternatives: Alternative 2: 300 MW on 2,385 acres; Revised Alternative 3: 300 MW on 1,685 acres; and, Alternative 4: 232 MW generated on 1,766 acres. All project alternatives also analyze an expansion of the Ivanpah Desert Wildlife Management Area (DWMA). The management prescriptions for the Ivanpah DWMA are defined in Appendix A, Section A.2, of the Northern and Eastern Mojave Desert Management Plan Amendment to the California Desert Conservation Area Plan (July 2002). If the DWMA is expanded, these management prescriptions will be applied to the expansion.

The Proposed Plan Amendment and Final EIS/EIR also analyzes three No Project alternatives: Alternative 5: No Action; Alternative 6: No Project, Amend the CDCA Plan to find the Project area unsuitable for solar development; and Alternative 7: No Project, Amend the CDCA Plan to find the Project area suitable for solar development. The Final EIS/EIR and CDCA Plan Amendment evaluates the potential impacts of the proposed SSFP on air quality and greenhouse gas emissions; biological resources; cultural resources; special status species; geology and soils; hazards and hazardous materials; hydrology and water quality; land use; noise; recreation; traffic; visual resources; lands with wilderness characteristics; cumulative effects and areas with high potential for renewable energy development.

Comments on the Draft EIS/EIR and CDCA Plan Amendment received from the public and internal BLM review were considered and incorporated as appropriate into the Final EIS/EIR and Proposed Plan Amendment. Public comments resulted in modification of Alternative 3, now evaluated in the Final EIS/EIR as Revised Alternative 3. However, the public comments did not significantly change proposed land use plan decisions. Instructions for filing a protest with the Director of the BLM regarding the Proposed Plan Amendment may be found in the "Dear Reader" letter of the SSFP Final EIS/EIR and Proposed Plan Amendment and at 43 CFR 1610.5-2. All protests must be

in writing and mailed to the appropriate address, as set forth in the **ADDRESSES** section above. Emailed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular mail or overnight delivery postmarked by the close of the protest period. Under these conditions, the BLM will consider the email as an advance copy and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct emails to bhudgets@blm.gov.

Before including your phone number, email address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your protest to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2.
