

record the monitoring results. Additionally, all affected facilities with existing Title V permits have now submitted their CAM monitoring approach in their permit renewal applications, therefore, significantly reducing the costs for new monitoring development. Also, we reviewed the reporting and recordkeeping requirements of the Title V permit program vis-à-vis those required under the CAM program. We found that, with the exception of sources required to develop a quality improvement plan, sources were meeting the reporting and recordkeeping requirements for CAM by complying with the requirements of the Title V program. We revised some of our assumptions to account for the additional requirements set forth under the CAM rule that are not outlined in the Title V program, while at the same time ensuring that requirements met under the Title V program were not being re-counted in this assessment. Furthermore, in order to reflect projected trends for the next 3 years, we updated some of the formulas used to calculate burden.

John Moses,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; 8-Hour Ozone National Ambient Air Quality Standard (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), 8-Hour Ozone National Ambient Air Quality Standard, to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through December 31, 2013. Public comments were previously requested via the **Federal Register** (78 FR 45188) on July 26, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public.

An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 18, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2003-0079, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Mr. H. Lynn Dail, Air Quality Policy Division, Office of Air Quality Planning and Standards, Mail Code C539-01, Environmental Protection Agency, T.W. Alexander Drive, Research Triangle Park, NC 27711; telephone number: (919) 541-2363; fax number: (919) 541-0824; email address: dail.lynn@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

EPA ICR Number: 2236.04.

OMB Control Number: 2060-0594.

Abstract: This ICR assesses the burden (in hours and dollars) of the 1997 8-hour Ozone National Ambient Air Quality Standard (NAAQS) Implementation Rule as well as the periodic reporting and record keeping necessary to maintain the rule. The rule was proposed on June 2, 2003, (68 FR 32802) and promulgated in two Phases: Phase 1 published on April 30, 2004, (69 FR 23951) and Phase 2 published on November 29, 2005 (70 FR 71612). The rule includes requirements that involve

collecting information from states with areas that remain designated non-attainment for the 1997 8-hour ozone NAAQS. These information collection milestones include state submission of an attainment demonstration SIP, a RFP SIP submission, and a RACT SIP. However, not all of the milestones and associated burden and administrative costs estimates apply to every designated nonattainment area. The burden estimated is for six of the thirty-eight non-attainment areas that were reclassified to a higher classification resulting in new SIP revisions required. The remaining thirty-two non-attainment areas have either met the requirements or have their requirements suspended.

Form Numbers: None.

Respondents/affected entities: States and regional entities.

Respondent's obligation to respond: Mandatory as required by the Clean Air Act, Section 110.

Estimated number of respondents: 6 (total).

Frequency of response: Annual.

Total estimated burden: 11,667 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$759,500 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 5,000 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This is due to a number of reasons that include: (1) The burden associated with one remaining non-attainment area that may receive a mandatory reclassification is estimated to be the same as areas completing the initial SIP framework because of the work they must complete to reevaluate databases, emissions inventories, legal authorities, state rule development, publication and public hearing to comply with the standards; (2) EPA's final rule of May 14, 2012 (77 FR 28423) assigning former subpart 1 ozone non-attainment areas re-designations under subpart 2, resulted in non-attainment areas with additional burden for completing SIP revisions; (3) the number of non-attainment areas has decreased as areas have come into compliance with the standards; and (4) the number of non-attainment areas with SIP revisions required has decreased as areas have either submitted the requirements or the planning

requirements have been suspended with a Clean Data Determination.

John Moses,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Air Emission Standards for Tanks, Surface Impoundment and Containers (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Air Emission Standards for Tanks, Surface Impoundment and Containers (40 CFR Part 264, Subpart CC, and 40 CFR Part 265, Subpart CC) (Renewal)" (EPA ICR No. 1593.09, OMB Control No. 2060-0318), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through December 31, 2013. Public comments were previously requested via the **Federal Register** (78 FR 33409) on June 4, 2013, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 18, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0333, to: (1) EPA online, using www.regulations.gov (our preferred method), by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: This ICR renewal is being submitted for the Air Emission Standards for Tanks, Surface Impoundments and Containers (40 CFR Part 264, Subpart CC and 40 CFR Part 265, Subpart CC), which were promulgated on December 6, 1994. The requirements of this subpart apply to owners and operators of all facilities that treat, store, or dispose of hazardous wastes in tanks, surface impoundments and containers that are subject to subparts I, J or K of these parts, except for Sections 264.1 and 265.1 and those management units identified at Sections 264.1080(b) and 265.1080(b). Also, the requirements of this subpart apply to large quantity generators that manage hazardous wastes in either tanks, or containers (262.34(a)(1)(i and ii)). The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes or additions to the Provisions specified at 40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC.

Form Numbers: None.

Respondents/affected entities:

Facilities that treat, store, or dispose of RCRA Subtitle C hazardous waste.

Respondent's obligation to respond:

Mandatory (40 CFR part 264, subpart CC and 40 CFR part 265, subpart CC)

Estimated number of respondents:

6,209 (total).

Frequency of response: Occasionally, annually, and semiannually.

Total estimated burden: 712,293 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$82,092,685 (per year), includes \$12,418,000 for operation & maintenance costs annualized capital and no annualized capital/start-up costs.

Changes in the Estimates: There is an adjustment increase in the respondent burden hours and costs from the most recently approved ICR. The previous ICR used rounded numbers, while this ICR uses exact values in calculating burden hours. In addition, this ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

There is also an increase of one response in this ICR due to a correction. The previous ICR did not account for the annual project report for the Sistersville Plant when calculating the total number of responses.

John Moses,

Director, Collection Strategies Division.
