Draft FY 2014-2018 EPA Strategic Plan; Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability, request for public comments.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing the availability of the *Draft FY 2014-2018 EPA Strategic Plan* for public review and comment, as part of the periodic update required by the Government Performance and Results Act (GPRA) Modernization Act of 2010 (Pub. L. 111-352). The agency anticipates the final *Strategic Plan* will be submitted to Congress in February 2014. The *Strategic Plan* provides the Agency's long-term direction and strategies for advancing human health and the environment. For this notice, the EPA is seeking comment from individual citizens, states, tribes, local government, industry, the academic community, non-governmental organizations, and all other interested parties. The agency is particularly interested in feedback addressing strategies contained in the goal narratives, cross-cutting fundamental strategies, and strategic measures. The agency made targeted revisions to our existing Plan that seek to advance efforts to address our changing climate, protect our precious water and land resources, and advance chemical safety. The Plan seeks to outline how EPA will make a visible difference in communities across the country by advancing sustainability, innovation and providing sound scientific advice, technical and compliance assistance and other tools that support states, tribes, cities, towns, rural communities, and the private sector. Under this Plan, EPA will continue to improve the way we do business, engaging closely with our public sector partners at all levels and the regulated community to achieve environmental benefits in the most pragmatic, collaborative, and flexible way possible—for our children and future generations.

In addition, the EPA is proposing new FY 2014-2015 Agency Priority Goals—a key component of the

Administration's performance management system—to align more closely with our highest priorities, including improving the health of communities across the country and tackling the issue of climate change.

SUPPLEMENTARY INFORMATION:

Background

The GPRA Modernization Act holds federal agencies accountable for using resources wisely and achieving program results. Specifically, the GPRA Modernization Act requires agencies to develop: *Strategic Plans*, which include a mission statement, set out long-term goals, objectives, and strategic measures, and describe strategies to achieve them over a four-year time horizon; *Annual Performance Plans*, which provide annual performance measures and activities toward the long-term *Strategic Plan*; and, *Annual Performance Reports*, which evaluate an agency's success in achieving the annual performance measures.

The *Draft FY 2014–2018 EPA Strategic Plan* reflects the Administrator's themes for advancing EPA's mission. The *Plan* presents five strategic goals to accelerate protection of human health and the environment and four cross-cutting fundamental strategies for changing the way the agency does business in achieving its results. The five strategic goals are: Addressing Climate Change and Improving Air Quality; Protecting America's Waters; Cleaning Up Communities and Advancing Sustainable Development; Ensuring the Safety of Chemicals and Preventing Pollution; and Protecting Human Health and the Environment by Enforcing Laws and Assuring Compliance. The four cross-cutting fundamental strategies are: Working Toward a Sustainable Future; Working to Make a Visible Difference in Communities; Launching a New Era of State, Tribal, Local, and International Partnerships; and Embracing EPA as a High-Performing Organization. The *Strategic Plan* also identifies a suite of strategic measures by which the agency will hold itself accountable.

Maryann Froehlich,

Acting Chief Financial Officer, Office of the Chief Financial Officer.
