BILLING CODE 7710-FW-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rules 201 and 200(g) of Regulation SHO; SEC File No. 270-606, OMB Control No. 3235-0670.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) ("PRA"), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 201 (17 CFR 242.201) and Rule 200(g) (17 CFR 242.200(g)) under the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*).

Rule 201 is a short sale-related circuit breaker rule that, if triggered, imposes a restriction on the prices at which securities may be sold short. Rule 200(g) provides that a broker-dealer may mark certain qualifying sell orders "short exempt." The information collected under Rule 201's written policies and procedure requirement applicable to trading centers, the written policies and procedures requirement of the broker-dealer provision of Rule 201(c), the written policies and procedures requirement of the riskless principal provision of Rule 201(d)(6), and the "short exempt" marking requirement of Rule 200(g) enable the Commission and SROs to examine and monitor for compliance with the requirements of Rule 201 and Rule 200(g).

In addition, the information collected under Rule 201's written policies and procedure requirement applicable to trading centers help ensure that trading centers do not execute or display any impermissibly priced short sale orders, unless an order is marked "short exempt," in accordance with the Rule's requirements. Similarly, the information collected under the written policies and

procedures requirement of the broker-dealer provision of Rule 201(c) and the riskless principal provision of Rule 201(d)(6) help to ensure that broker-dealers comply with the requirements of these provisions. The information collected pursuant to the new "short exempt" marking requirement of Rule 200(g) also provide an indication to a trading center when it must execute or display a short sale order without regard to whether the short sale order is at a price that is less than or equal to the current national best bid.

It is estimated that SRO and non-SRO respondents registered with the Commission and subject to the collection of information requirements of Rules 201 and 200(g) incur an aggregate annual burden of 2,029,276 hours to comply with the Rules and an aggregate annual external cost of \$65,928,700.

Any records generated in connection with Rule 201's requirements that trading centers and broker-dealers (with respect to the broker-dealer and riskless principal provisions) establish written policies and procedures must be preserved in accordance with, and for the periods specified in, Exchange Act Rules 17a-1 for SRO trading centers and 17a-4(e)(7) for non-SRO trading centers and registered broker-dealers. The amendments to Rule 200(g) and Rule 200(g)(2) do not contain any new record retention requirements. All registered broker-dealers that are subject to the amendments are currently required to retain records in accordance with Rule 17a-4(e)(7) under the Exchange Act.

Compliance with Rule 201 and Rule 200(g) is mandatory. We expect that the information collected pursuant to Rule 201's required policies and procedures for trading centers will be communicated to the members, subscribers, and employees (as applicable) of all trading centers. In addition, the information collected pursuant to Rule 201's required policies and procedures for trading centers will be retained by the trading centers and will be available to the Commission and SRO examiners upon request, but not subject to public availability. The information collected pursuant to Rule 201's broker-dealer provision and the riskless principal exception will be retained by the broker-dealers and will be available to the Commission and SRO examiners upon request, but not subject to public availability. The information collected pursuant to the "short exempt" marking requirements in Rule 200(g) and Rule 200(g)(2) will be submitted to trading centers and will be available to the Commission and SRO examiners upon request. The
