

fund includes serving geographies or individuals located within the institution's assessment area(s) or a broader statewide or regional area that includes the institution's assessment area(s). Typically, information about where a fund's investments are expected to be made or targeted will be found in the fund's prospectus, or other documents provided by the fund prior to or at the time of the institution's investment, and the institution, at its option, may provide such documentation in connection with its CRA evaluation.

Nationwide funds are important sources of investments in low- and moderate-income and underserved communities throughout the country and can be an efficient vehicle for institutions in making qualified investments that help meet community development needs. Nationwide funds may be suitable investment opportunities, particularly for large financial institutions with a nationwide branch footprint. Other financial institutions, including those with a nationwide business focus, may find such funds to be efficient investment vehicles to help meet community development needs in their assessment area(s) or the broader statewide or regional area that includes their assessment area(s). Prior to investing in such a fund, an institution should consider reviewing the fund's investment record to see if it is generally consistent with the institution's investment goals and the geographic considerations in the regulations. Examiners will consider investments in nationwide funds that benefit the institution's assessment area(s). Examiners will also consider investments in nationwide funds that benefit the broader statewide or regional area that includes the institution's assessment area(s) consistent with the treatment detailed in Q&A § \_\_.12(h)–6.

### Proposed Project

Evaluation of the National Tobacco Prevention and Control Public Education Campaign (OMB No. 0920–0923, exp. 4/30/2014)—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

### Background and Brief Description

The Centers for Disease Control and Prevention (CDC) requests a two-year Office of Management and Budget (OMB) approval to conduct a Web-based longitudinal study of smokers and non-smokers in the U.S. This study will be fielded for purposes of evaluating the CDC's National Tobacco Prevention and Control Public Education Campaign (The Campaign) and monitoring its longer term impact. We will conduct 5 survey waves of data collection among
