

of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Under the provisions of national Program Development and Approval Guidance implementing section 6217 of the Coastal Zone Act Reauthorization Amendments of 1990 (CZARA) which was jointly developed and published by EPA and the National Oceanic and Atmospheric Administration (NOAA), 29 coastal States and 5 coastal Territories with federally approved Coastal Zone Management Programs have developed and submitted to EPA and NOAA Coastal Nonpoint Pollution Programs. Another State (Illinois) is developing its program for submittal to EPA and NOAA in early 2014. EPA and NOAA have fully approved 17 States and 5 Territories, and conditionally approved 11 States. Another State that was conditionally approved (Alaska) ceased its participation in this program in 2011.

Form Numbers: None.

Respondents/affected entities: Entities affected by this action are 11 coastal States with conditionally approved Coastal Nonpoint Pollution Control Programs and 1 coastal State that will submit its program for federal approval in 2014.

Respondent's obligation to respond: Required to obtain or retain benefits.

Estimated number of respondents: 12 States (total).

Frequency of response: On occasion.

Total estimated burden: 1,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$55,500 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 125 hours (per year) in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is the result of progress that States which are not yet unconditionally approved have made that have resulted in the reduction in the number of conditions imposed on them by EPA and NOAA, offset by the addition of a new State coastal nonpoint program (Illinois), as well as the

sunsetting of one State program in 2011 (Alaska).

Dated: November 6, 2013.

Director, Office of Wetlands, Oceans, and Watersheds.
