

number (*i.e.*, at that exporter's rate) will be liquidated at the PRC-wide rate.¹²

The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated antidumping duties.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For the exporters listed above, the cash deposit rate will be equal to the weighted-average dumping margin established in the final results of this review (except, if the rate is zero or *de minimis*, then the cash deposit rate will be zero for that exporter); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be 60.85 percent, which is the rate for the PRC-wide entity;¹³ and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the CBP assessing double antidumping duties based on the Department's presumption that antidumping duties were reimbursed.

¹² For a full discussion of this practice, see *Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties*, 76 FR 65694 (October 24, 2011).

¹³ See *Seamless Refined Copper Pipe and Tube From the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 75 FR 60725, 60729 (October 1, 2010).

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.213.

Dated: November 14, 2013.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

Appendix—List of Topics Discussed in the Preliminary Decision Memorandum

1. Affiliation and Collapsing
2. Separate Rate
3. Rate for Non-Examined, Separate Rate Respondents
4. PRC-Wide Entity
5. Use of Facts Available and Adverse Facts Available
6. Surrogate Country
7. Date of Sale
8. Fair Value Comparisons
9. Determination of Comparison Method
10. Export Price
11. Constructed Export Price
12. Normal Value
13. Factor Valuations
14. Duty Absorption
15. Currency Conversion

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Pacific Tuna Fisheries Logbook

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before January 21, 2014.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Rachael Wadsworth, (562)

980-4036 or Rachael.Wadsworth@noaa.gov

SUPPLEMENTARY INFORMATION:

I. Abstract

United States (U.S.) participation in the Inter-American Tropical Tuna Commission (IATTC) results in certain recordkeeping requirements for U.S. fishermen who fish in the IATTC's area of management responsibility. These fishermen must maintain a log of all operations conducted from the fishing vessel, including the date, noon position, and the tonnage of fish aboard the vessel, by species. The logbook form provided by the IATTC is universally used by U.S. fishermen to meet this recordkeeping requirement. The information in the logbooks includes areas and times of operation and catch and effort by area. Logbook data are used in stock assessments and other research concerning the fishery. If the data were not collected or if erroneous data were provided, the IATTC assessments would likely be incorrect and there would be an increased risk of overfishing or inadequate management of the fishery.

II. Method of Collection

Vessel operators maintain bridge logs on a daily basis, and the forms are either mailed to the IATTC or to National Marine Fisheries Service (NMFS) at the completion of each trip. The data are processed and maintained as confidential by the IATTC.

III. Data

OMB Control Number: 0648-0148.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households, business or other for profit organizations.

Estimated Number of Respondents:

11.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 170.

Estimated Total Annual Cost to Public: \$122.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the

burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: November 15, 2013.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XC974

Atlantic Highly Migratory Species; Exempted Fishing, Scientific Research, Display, and Chartering Permits; Letters of Acknowledgment

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of intent; request for comments.

SUMMARY: NMFS announces its intent to issue Exempted Fishing Permits (EFPs), Scientific Research Permits (SRPs), Display Permits, Letters of Acknowledgment (LOAs), and Chartering Permits for Atlantic highly migratory species (HMS) in 2014. Exempted fishing permits and related permits would authorize collection of a limited number of tunas, swordfish, billfishes, and sharks (collectively known as HMS) from Federal waters in the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico for the purposes of scientific data collection and public display. Chartering permits allow the collection of HMS on the high seas or in the Exclusive Economic Zone of other nations under certain conditions. Generally, EFPs and related permits will be valid from the date of issuance through December 31, 2014, unless otherwise specified, subject to the terms and conditions of individual permits.

DATES: Written comments on these activities received in response to this notice will be considered by NMFS when issuing EFPs and related permits and must be received on or before December 23, 2013.

ADDRESSES: Comments may be submitted by any of the following methods:

- *Email:* nmfs.hms.efp2014@noaa.gov. Include in the subject line the following identifier: 0648-XC974.
- *Mail:* Craig Cockrell, Highly Migratory Species Management Division (F/SF1), NMFS, 1315 East-West Highway, Silver Spring, MD 20910.
- *Fax:* (301) 713-1917.

FOR FURTHER INFORMATION CONTACT:

Craig Cockrell, phone: (301) 427-8503, fax: (301) 713-1917.

SUPPLEMENTARY INFORMATION: Issuance of EFPs and related permits are necessary for the collections of HMS for public display and scientific research to exempt them from regulations (e.g., fishing seasons, prohibited species, authorized gear, closed areas, and minimum sizes) that may otherwise prohibit the collection. Collection for scientific research and display represents a small portion of the overall fishing mortality for HMS, and this mortality is counted against the quota of the species harvested, as appropriate and applicable. The terms and conditions of individual permits are unique; however, all permits will include reporting requirements, limit the number and species of HMS to be collected, and only authorize collection in Federal waters of the Atlantic Ocean, Gulf of Mexico, and Caribbean Sea.

EFPs and related permits are issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act (Magnuson-Stevens Act) (16 U.S.C. 1801 *et seq.*) and/or the Atlantic Tunas Convention Act (ATCA) (16 U.S.C. 971 *et seq.*). Regulations at 50 CFR 600.745 and 635.32 govern scientific research activity, exempted fishing, chartering arrangements, and exempted public display and educational activities with respect to Atlantic HMS. Since the Magnuson-Stevens Act does not consider scientific research to be “fishing,” scientific research is exempt from this statute, and NMFS does not issue EFPs for bona fide research activities (e.g., research conducted from a research vessel and not a commercial or recreational fishing vessel) involving species that are only regulated under the Magnuson-Stevens Act (e.g., most species of sharks) and not under ATCA. NMFS generally does not consider recreational or commercial vessels bona fide research vessels. However, if the vessels have been contracted to only conduct research and not participate in any commercial or recreational fishing activities during that research, NMFS may consider those vessels as bona fide

research platforms while conducting the specified research. For example, in the past, NMFS has determined that commercial pelagic longline vessels assisting with population surveys for sharks are considered bona fide research vessels while engaged only in the specified research. NMFS requests copies of scientific research plans for these activities and acknowledges the activity by issuing an LOA to researchers to indicate that the proposed activity meets the definition of research. Examples of research conducted under LOAs include tagging and releasing of sharks during bottom longline surveys to understand the distribution and seasonal abundance of different shark species, and collecting and sampling sharks caught during trawl surveys for life history studies.

Scientific research is not exempt from regulation under ATCA. NMFS issues SRPs which authorize researchers to collect HMS from bona fide research vessels for collection of species managed under this statute (e.g., tunas, swordfish, billfish, and some species of sharks). One example of research conducted under SRPs consists of scientific surveys of HMS conducted from the NOAA research vessels. EFPs are issued to researchers collecting ATCA-managed species and conducting research from commercial or recreational fishing vessels. NMFS regulations concerning the implantation or attachment of archival tags in Atlantic HMS require scientists to report their activities associated with these tags. Examples of research conducted under EFPs include deploying pop-up satellite archival tags on billfish, sharks, and tunas to determine migration patterns of these species; conducting billfish larval tows to determine billfish habitat use, life history, and population structure; and determining catch rates and gear characteristics of the swordfish buoy gear fishery.

NMFS is also seeking public comment on its intent to issue display permits for the collection of sharks and other HMS for public display in 2014. Collection of sharks and other HMS sought for public display in aquaria often involves collection when the commercial fishing seasons are closed, collection of otherwise prohibited species, and collection of fish below the regulatory minimum size. NMFS established a 60-metric ton (mt) whole weight (ww) (approximately 3,000 sharks) quota for the public display and research of sharks (combined) in the final Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks (1999 FMP). Out of this 60 mt ww quota, 1.4 mt ww is set aside to collect sandbar sharks under
