BILLING CODE 4160-01-P

DEPARTMENT OF HOMELAND SECURITY**Coast Guard****33 CFR Part 117**

[Docket No. USCG-2013-0936]

Drawbridge Operation Regulation; Upper Mississippi River, Rock Island, IL**AGENCY:** Coast Guard, DHS.**ACTION:** Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Rock Island Railroad and Highway Drawbridge across the Upper Mississippi River, mile 482.9, at Rock Island, Illinois. The deviation is necessary to allow the bridge owner time to perform preventive maintenance and critical repairs that are essential to the continued safe operation of the drawbridge. The work is scheduled in the winter, when the impact on navigation is minimal, instead of scheduling the work at other times in the year, when river traffic is prevalent. This deviation allows the bridge to be maintained in the closed-to-navigation position for 77 days.

DATES: This deviation is effective from 7:30 a.m., December 18, 2013 to 7:30 a.m. March 4, 2014.

ADDRESSES: The docket for this deviation, USCG-2013-0936, is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this deviation. You may also visit the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email Eric A. Washburn, Bridge Administrator, Western Rivers, Coast Guard; telephone (314) 269-2378, email Eric.Washburn@uscg.mil. If you have questions on

viewing the docket, call Cheryl F. Collins, Program Manager, Docket Operations, telephone (202)366-9826.

SUPPLEMENTARY INFORMATION: The U.S. Army Rock Island Arsenal requested a temporary deviation for the Rock Island Railroad and Highway Drawbridge, mile 482.9, at Rock Island, Illinois across the Upper Mississippi River. It has a vertical clearance of 23.8 feet above normal pool in the closed position. The Rock Island Railroad and Highway Drawbridge currently operates in accordance with 33 CFR 117.5, which states the general requirement that drawbridges shall open promptly and fully for the passage of vessels when a request to open is given in accordance with the subpart.

The deviation period is from 7:30 a.m., December 18, 2013 to 7:30 a.m., March 4, 2014 when the draw span will remain in the closed-to-navigation position. During this time the bridge owner will replace critical control components that are essential to the continued safe operation of the drawbridge. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels to pass this section of the Upper Mississippi River. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

Winter conditions on the Upper Mississippi River coupled with the closure of Army Corps of Engineer's Lock No. 18 (Mile 410.5 UMR) and Lock No. 22 (Mile 301.2 UMR) till 11 a.m., March 4, 2014 will preclude any significant navigation demands for the drawspan opening.

There are no alternate routes for vessels transiting this section of the Upper Mississippi River.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: November 5, 2013.

Eric A. Washburn,*Bridge Administrator, Western Rivers.*

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 52**

[EPA-R07-OAR-2013-0585; FRL-9903-14-Region 7]

Approval and Promulgation of Implementation Plans; State of Missouri; Restriction of Emission of Sulfur Compounds and Emissions Banking and Trading**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Direct final rule.

SUMMARY: EPA is approving two revisions to the State Implementation Plan (SIP) for Missouri that were submitted on September 5, 2012. The revision to the Missouri rule "Restriction of Emission of Sulfur Compounds" removes redundant sulfur dioxide standards and outdated compliance dates. Due to these revisions, several within-rule references are amended. Revisions to the Missouri rule "Emissions Banking and Trading" removes all definitions, as they are now included in the general definitions rule. The reference to the state's Ambient Air Quality Standards rule that is included in the definition of National Ambient Air Quality Standards is also removed. The revisions to Missouri's rules do not have an adverse affect on air quality. EPA's approval of this SIP revision is being done in accordance with the requirements of the Clean Air Act (CAA).

DATES: This direct final rule will be effective January 21, 2014, without further notice, unless EPA receives adverse comment by December 23, 2013. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2013-0585, by one of the following methods:

1. www.regulations.gov. Follow the on-line instructions for submitting comments.
2. Email: bhesania.amy@epa.gov.
3. Mail or Hand Delivery: Amy Bhesania, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219.

Instructions: Direct your comments to Docket ID No. EPA-R07-OAR-2013-0585. EPA's policy is that all comments received will be included in the public docket without change and may be

made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through www.regulations.gov or email information that you consider to be CBI or otherwise protected. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through www.regulations.gov, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219. The Regional Office's official hours of business are Monday through Friday, 8:00 to 4:30 excluding Federal holidays. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

FOR FURTHER INFORMATION CONTACT: Amy Bhesania at (913) 551-7147, or by email at bhesania.amy@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document "we," "us," or "our" refer to EPA. This section provides additional information by addressing the following:

I. What is being addressed in this document?

- II. Have the requirements for approval of a SIP revision been met?
 III. What action is EPA taking?

I. What is being addressed in this document?

EPA is approving two revisions to the Missouri SIP submitted to EPA on September 5, 2012. The revision to Missouri rule 10 CSR 10-6.260, "Restriction of Emission of Sulfur Compounds" removes redundant sulfur dioxide standards and outdated compliance dates. Due to these revisions, several within-rule references are amended. Revisions to Missouri rule 10 CSR 10-6.410, "Emissions Banking and Trading" removes all definitions, as they are now included in the general definitions rule. The reference to the State's Ambient Air Quality Standards rule that was included in the definition of National Ambient Air Quality Standards is also removed.

EPA has conducted an analysis of the State's amendments and has concluded that these revisions do not adversely affect the stringency of the SIP or adversely impact air emissions.

II. Have the requirements for approval of a SIP revision been met?

The state submission has met the public notice requirements of 40 CFR 51.102 for SIP submissions. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

III. What action is EPA taking?

EPA is approving two revisions to the Missouri SIP. The first revision will amend 10 CSR 10-6.260 "Restriction of Emission of Sulfur Compounds," and will remove redundant sulfur dioxide standards and outdated compliance dates. The state is removing the reference to 10 CSR 10-6.010, which refers to the Ambient Air Quality Standards. The section is redundant in that sources have to comply with this requirement through other SIP approved permitting programs and rules, and it is burdensome and costly to update this reference each time the rule is revised. Several within-rule references are amended to accommodate the revisions.

The second revision amends 10 CSR 10-6.410 "Emissions Banking and Trading" by removing definitions, as they are now included in the general definitions rule. In addition to removing the definition of National Ambient Air Quality Standards, a reference to the State's Ambient Air Quality Standards rule will also be removed.

EPA has determined that these changes will not relax the SIP or adversely impact air emissions. For more information about these changes, see the Technical Support Document which is available in the public docket for this rulemaking.

We are processing this action as a direct final action because the revisions do not adversely impact air emissions, and we do not anticipate any adverse comments. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment.

Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because

application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United

States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by January 21, 2014. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of today’s **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to

enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Sulfur dioxide, Reporting and recordingkeeping requirements.

Dated: November 8, 2013.

Karl Brooks,
Regional Administrator, Region 7.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart AA—Missouri

■ 2. In § 52.1320 the table in paragraph (c) is amended by revising the entries for 10–6.260 and 10–6.410 to read as follows:

§ 52.1320 Identification of plan.
