The Challenge effort will rely on data the Partners will provide via an online response tool. The data collection would address the following topic areas: (1) Charging infrastructure and use; (2) employee PEV ownership and PEV knowledge; and (3) feedback on the Challenge.

The data will be compiled for the purpose of assessing and setting forth in the annual progress updates the Workplace Charging Challenge program’s impact in terms of increasing both the number of employers offering workplace charging and the deployment of EVSEs and PEVs.

The data and subsequent analyses will allow DOE to compare historical records dynamically, and provide the opportunity for DOE to determine annual progress toward Workplace Charging Challenge goals. Calculation of progress and impacts will be undertaken on an annual basis.

The Workplace Charging Challenge program is targeted at U.S. employers. Providing initial baseline information for each participating employer, which occurs only once, is expected to take 1.5 hours. Follow-up questions and clarifications for the purpose of ensuring accurate analyses may take up to 3.5 hours; (5) Annual Estimated Number of Respondents: 400; (6) Annual Estimated Number of Total Responses: 400; (7) Annual Estimated Number of Burden Hours: 2,000; (8) Annual Estimated Reporting and Recordkeeping Cost Burden: There is no cost associated with reporting and recordkeeping.

Statutory Authority: 42 U.S.C. Sec. 13233; 42 U.S.C. Sec. 13252(a)–(b); 42 U.S.C. 13255.

Issued in Washington, DC, on November 15, 2013.

Patrick B. Davis,
