

versions of the Alternate CRA. The Alternative CRA folders presented the best approximation that the Postal Service could provide of the costs, revenues, volumes, and contributions for the pre-Postal Accountability and Enhancement Act (PAEA) classifications. In recent years, however, as more products or more parts of products have been shifted to Competitive products, the Postal Service has provided only a non-public version of the Alternate CRA. *Id.* at 2. The resulting non-public folder presented the alternative format materials for market dominant and competitive mail while attempting to revert back to their pre-PAEA mail categories the revenues, volumes, costs, and weights of mail, including those that had subsequently been moved to the Competitive product list. *Id.* Because the data systems cannot always track the information by pre-PAEA categories, other methods of estimating the data required for the Alternate CRA were developed, with the result that the methodologies used to attempt to populate this chart vary. *Id.*

In order to reassemble the pre-PAEA classifications, the estimation approaches vary, such that the aggregation of cost data from underlying categories of mail from one report or estimation methodology may not always match those developed via a different estimation technique, and data for some categories may not exist at all. *Id.* at 3–4.

The Postal Service points out that the Alternate CRA provided a bridge from the pre-PAEA era to the post-PAEA era as a way of maintaining trend data based on the pre-PAEA categories to ensure no categories of postal products were inadvertently omitted, and to ensure the integrity of the data reporting. Citing changed circumstances, *e.g.*, the shifting of products and parts thereof from market dominant to competitive, the Postal Service questions the usefulness of maintaining the report in a necessarily non-public format, when the information reported is increasingly the result of ratio analyses, estimates, and splits tied to shares from seven years ago. *Id.* at 4. The Postal Service believes that any possible use of the report is now overshadowed by the weakness of the information contained therein, and that it is no longer relevant. *Id.*

The Postal Service also claims that the burden to produce this alternative format report is substantial when Postal Service resources are already most fully taxed by preparation of the other components of the ACR. By necessity, the Alternate CRA cannot be produced until all other ACR work has been

completed, as it requires inputs from the CRA itself, the cost avoidance studies, and other analyses, which means that the Alternate CRA is the last part of the ACR production process and requires last-minute attention *Id.* at 4–5.

Therefore, the Postal Service requests the Commission delete the second sentence of Commission rule 3050.14 establishing the requirement for production and submission of the alternative format CRA with the ACR. *Id.* at 6.

#### *B. Request for Waiver of Reporting Alternate Format CRA for FY 2013*

The Postal Service recognizes that it may not be possible for the Commission to accomplish a permanent change in its rules in the next month prior to the Postal Service's preparation of the ACR. *Id.* at 5. As such, the Postal Service requests that the Commission waive application of the Alternative format CRA portion of rule 3050.14 for FY 2013. *Id.* at 5–6.
